## **Networking Tips**

1. Before you start, quickly review the information in this handout. Learn who is here, what industry they represent and what opportunities they may offer.
2. What is your purpose for being here? Are you a senior looking for full-time employment? Are you a junior trying to learn what career paths exist in a particular industry? Are you a freshman trying to find a summer job? Make sure **YOU** understand what you are looking for before you try to make an employer/alumnus understand.
3. Concentrate on good eye contact, a firm handshake, intelligent questions and attentive listening. Do not chew gum, eat/drink while talking to representatives or act rude in any way.
4. If you have a resume with you, offer it to representatives after you've had a chance to talk with him or her. If you do not have a resume with you, offer to send one. Either way, ask for business cards and/or contact information for possible follow-up action.
5. Do your best to sell yourself. Talk about your skills, experience and coursework. Don't hesitate to enlighten an employer who may be unfamiliar with your major.
6. If you are simply exploring, don't be afraid to say so. Feel free to gather business cards and make contacts. You never know when this information may come in handy.
7. Take notes. After you talk with an employer/alumnus, make notes about your discussion. This will be extremely important for follow up communication and/or future interviews.
8. If you talk extensively with someone, be sure to send a thank you letter after the career fair. If you promise to send a resume or other materials to them, do so.
9. Relax! These people were once job seekers themselves, and most are very sympathetic to your situation. All have chosen to attend today because they are interested in talking with students, so take full advantage of this opportunity!

***Good luck and enjoy "your" day!***

## **Sample Questions For Employers At The Career Fair**

1. What types of entry-level positions for college graduates exist in your organization?
2. What qualifications are required for these positions?
3. Are there immediate plans for expansion in your organization, either in new offices/stores or new market areas? In what direction are you moving?
4. How is the current economy impacting your organization?
5. What type of training program do you have? Or, please describe your training program.
6. What kinds of career-related experience, paid employment or otherwise, would you recommend as good preparation for employment with your organization?
7. What types of academic courses would prove beneficial for success in this specific field?
8. Can you give me an idea of what your career path has been like thus far? What do you consider to be the advantages and disadvantages of working in this career field?
9. Are summer positions and/or internships available with your organization?
10. Are there other individuals you might recommend I contact to learn more about this career field? industry?; employment opportunities?; summer jobs?; internships? etc.
