## Career Fair Tips

1. Before you start, quickly review the information in this booklet. Learn who is here, what industry they represent, and what opportunities they may offer.
2. What is your purpose for being here? Are you a looking for a summer job at a camp, or are you looking for a summer internship? Make sure you understand what you are looking for BEFORE you talk to an employer.
3. Concentrate on good eye contact, a firm handshake, intelligent questions and attentive listening. Do not chew gum, eat or drink while talking to representatives, or act rude in any way.
4. If you have a resume with you, offer it to representatives after you've had a chance to talk with him or her. If you do not have a resume with you, offer to send one. Either way, ask for business cards and/or contact information for possible follow-up action.
5. Do your best to market yourself. Talk about your skills, experience and coursework. Don't hesitate to enlighten an employer who may be unfamiliar with your major.
6. If you are simply exploring, don't be afraid to say so. Feel free to gather business cards and make contacts. You never know when this information may come in handy.
7. Take notes. After you talk with an employer/alumnus, make notes about your discussion. This will be extremely important for follow-up communication and/or future interviews.
8. If you talk extensively with someone, be sure to send a thank you letter after the career fair. If you promised to send a resume or other materials to them, do so.
9. Relax! These people were once job-seekers themselves, and most are very sympathetic to your situation. All have chosen to attend today because they are interested in talking with students so take full advantage of this opportunity!
10. Good luck and enjoy your day!
