MEDICAL, PSYCHOLOGICAL OR DISABILITY-RELATED REQUEST TO BE RELEASED FROM HOUSING CONTRACT

In order to evaluate how we can best meet your needs, we require specific information from both you and your healthcare professional. In order to be considered for a contract release, you must complete and sign the first portion of this form, requesting this as an accommodation, and giving Disability Support Services (DSS) permission to speak to your healthcare professional. Your healthcare professional must complete the rest of this form, sign it, and return the completed packet to the above address. In addition to the basic documentation about the condition, further recommendations from the healthcare professional are welcome and will be given consideration in evaluating the request for release. Note: he/she may also fax the form and any additional information (see fax number above), or scan and email it to dssoffice@udel.edu.

Policies and Procedures

The learning environment and residential living are central to the University of Delaware student experience. Residence Life & Housing refers or forwards all medical, psychological or disability related requests for contract release in order to live at home or off campus to the DSS Office. The information is kept confidential and is only used to evaluate the request for contract release. Each student’s situation is evaluated individually. To aid in this process, complete requests should include:

- This completed form and any additional medical information, submitted to DSS
- The “Request for Release Form” found on the Residence Life and Housing website, submitted to Residence Life and Housing (www.udel.edu/housing)

Students who request release from the Academic Year Undergraduate Housing Contract will be considered for release if the medical need cannot be accommodated by available on-campus housing. Requests must be accompanied by relevant and substantial supporting documentation provided by a certified healthcare professional. This documentation must consist of an evaluation by an appropriate professional that relates the current impact of the condition to the request for release, and should describe what the off-campus facilities can provide that cannot be accommodated on campus. All documentation submitted will be reviewed by DSS and a recommendation forwarded to the Office of Residence Life and Housing, who will make a decision about the requested release.

Factors we consider when evaluating requests for housing accommodations:

- Is the impact of the condition life-threatening if the request is not met?
- Is there an available on-campus space that can accommodate the student’s needs?
- Can an on-campus space be adapted for the student without creating a safety hazard?
- Are there other effective means that would achieve similar benefits as the requested accommodation?
