

SUMMER 2012 Internships at AAG

The AAG seeks interns on a year-round basis for the spring, summer, and fall semesters.

Interns participate in most AAG programs and projects such as education, outreach, research, website, publications, or the Annual Meeting. The AAG also arranges for interns to accompany different AAG staff on visits to related organizations or events of interest during the course of their internship. A monthly stipend of \$500 is provided and interns are expected to make their own housing and related logistical arrangements. Enrollment in a Geography or closely related program is preferred but not a prerequisite for these opportunities.

Applications

Applicants should forward Candida Mannozi, cmannozi@aag.org
