Graduate Assistantship Positions

The University of Delaware is seeking self-motivated students interested in pursuing graduate **Sports Medicine** education through interdisciplinary MS or PhD degree programs. Several Graduate Assistantship positions are available through UD Intercollegiate Athletics, the Department of Health, Nutrition & Exercise Sciences, and clinical outreach athletic training contracts. Stipends are at least **\$14,000 (9 months)** with a **full tuition waiver** and may include clinical athletic training coverage, instruction, or research responsibilities. Additional compensation may be available for winter or summer sessions. Qualified students may also gain athletic training teaching and administrative experience with the CAATE accredited undergraduate athletic training education program.

The University of Delaware is situated in the northwest corner of the state, in the town of Newark, minutes from the I-95 corridor. This offers a traditional small-town college atmosphere in a location that affords easy access to major cultural and entertainment centers in nearby metropolitan areas. In addition to nearby the shore resorts of Delaware, recreational areas of New Jersey and Maryland, and the ski slopes and the of the Pocono Mountains are within two hours drive.

Application Steps:

- 1) Notify Dr. Buz Swanik of intent to apply, or for questions.
- 2) Apply on-line with links below:

- MS Degree:
