

UNIVERSITY OF DELAWARE
STUDENT ORGANIZATION ACTIVITY CENTER

STUDENT ORGANIZATION APPLICATION FOR REGISTRATION

Date received by SOAC: September 29, 1986

1. Name of Organization: American Institute of Chemical Engineering

2. The purpose of this organization is:

To promote chemical engineering as a profession and to communicate how mankind can benefit from this practice.

a. Describe the specific goals and objectives of the organization as they relate to the purpose:

"1. To advance chemical engineering in theory and in practice, 2. to maintain a high professional standard among its members, 3. to serve society, particularly where chemical engineering can contribute to the public interest."

(Taken from Constitution and Bylaws of AIChE, March 26, 1983)

b. Describe ways in which the University community may benefit from this group becoming a registered student organization:

This organization prepares students to become and act as professionals who will serve the public after graduation.

c. Describe how the individual members will benefit from the organization:

One will be able to attend workshops to educate oneself about the profession.

STUDENT ORGANIZATION APPLICATION FOR REGISTRATION

-2-

3. Describe the nature of any relationship, financial or otherwise, that this organization has with another student organization, University department, or a local, state, national or international organization or agency:

Interacts (monthly meetings) with the Wilmington Section-AlChE and obtains membership information and paraphernalia from the national chapter.

- a. Describe any involvement the above group has in the financial policy or program decisions of your organization:

The Wilmington Section sponsors a bus to take students to events.

4. May any non-University related individuals participate in the activities of this organization? Yes X No _____

If Yes, describe the nature and degree of involvement:

Guest lecturers are invited to speak and Wilmington Section AlChE Committee members help organize events.

5. List the qualifications for membership (including dues) and for holding office:

Membership: Any chemical engineering student including graduate students.

(member is NOT required to be a ChemE but the events are focused on chemical engineering)

Dues are \$5.00/year

Office: All four positions are held by senior chemical engineers.

6. Describe the group's organizational structure, including the responsibilities of officers:

President: Controls all activities; organizes meetings

Vice President: Assists in planning and organization

Secretary: Distribute minutes; provide refreshments; publicity

Treasurer: Membership/Finances
