Some people found when they connected their laptop to a receiver and turned on the power that they were getting a message regarding the need to install the PRS Receiver software.

If you see the message – Found New Hardware, and the following pop-up appears:

Found New Hardware Wizard		
	Welcome to the Found New Hardware Wizard Windows will search for current and updated software by looking on your computer, on the hardware installation CD, or on the Windows Update Web site (with your permission).	
	Can Windows connect to Windows Update to search for software? Yes, this time only Yes, now and every time I connect a device No, not this time	
	Click Next to continue.	
	< Back Next > Cancel	

Select, ->Yes, this time only.

Found New Hardware Wizard		
	Welcome to the Found New Hardware Wizard	
	Windows will search for current and updated software by looking on your computer, on the hardware installation CD, or on the Windows Update Web site (with your permission). <u>Read our privacy policy</u>	
	Can Windows connect to Windows Update to search for software?	
	 Yes, this time only Yes, now and every time I connect a device No, not this time 	
	Click Next to continue.	
	< Back Next > Cancel	

Then select Next. The following pop-up will appear.

Select -> Install the software automatically. (It will look in the files that are on your computer when you first installed the software.)

Select Next.

You should see a pop-up displaying the PRS RF Receiver software being installed. If you see the message below – select -> Continue Anyway.

Found New Hardware Wizar	d and a second
Please wait while the wizard	Hardware Installation
PRS RF Receiver	The software you are installing for this hardware: PRS RF Receiver has not passed Windows Logo testing to verify its compatibility with Windows XP. (Tell me why this testing is important.) Continuing your installation of this software may impair or destabilize the correct operation of your system either immediately or in the future. Microsoft strongly recommends that you stop this installation now and contact the hardware vendor for software that has passed Windows Logo testing.
	Continue Anyway STOP Installation
	< Back Next > Cancel

When it is complete you should see Finish.

This should only happen once, then you should be all set.
