

How do you connect to UD Network?

1. Choose the way you are trying to connect to the University of Delaware network:

Local Area Network - LAN

or

Wireless Network Connection

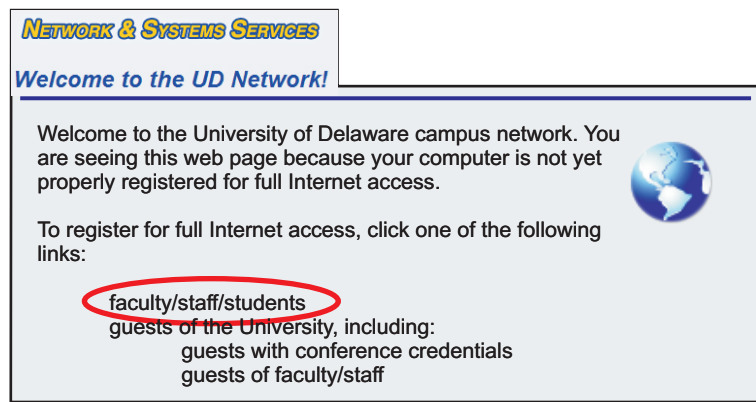

If you are trying to connect by Ethernet cable in your dorm room(Christiana Towers), you first have to disable Wireless Network Connection (Under Network Connections in Control Panel menu)

If you are trying to connect to the UD Wireless Network Connection on campus(ELI buildings, Morris Library, Trabant, Perkins, and other University wireless covered areas), you first have to disable LAN (Under Network Connections in Control Panel menu)

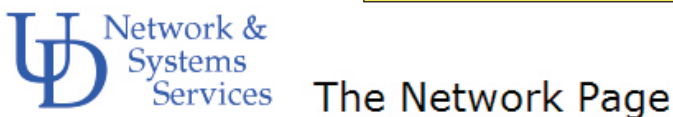

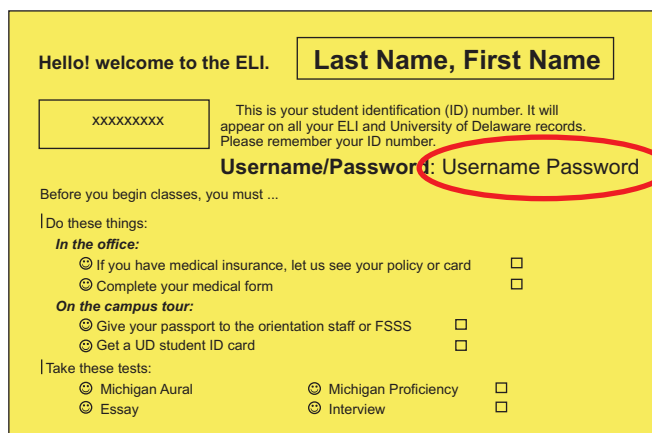

2. Start your Browser (Mozilla Firefox, Internet Explorer, Safari, Opera,...)

3. From the Network page (www.udel.edu/network) on your screen select Faculty/Student/Staff link as shown below

4. Login with your username and password that you received from the ELI when you first arrived (figure 4.1.)

figure 4.1.

Important:

- If you do NOT know your UD ID or Password see the ELI front desk secretary
- To protect your personal information, be sure to log off and close your web browser when you are done

How do you connect to UD Network?

2/2

4.1. If you have not already done so, complete the UCCE and ECCE exercises to activate your UDeINet ID (your UD e-mail account).

Note: If these exercises do not show up on your computer, skip this step and proceed with step 4.2.

4.2. Choose your new UDeINetID as instructed on the image below:

You must choose a UDeINet ID made up of 3-8 lowercase letters (no spaces, numbers, or punctuation marks).

Type your new UDeINet ID here: nzubaca @udel.edu

5. After you click **Return to Main Network Page** button, your main **Network Page** will appear. Click on **Register a computer, iPod or other Internet-enabled device for full Internet access** (figure 5.1.) and in box that appears next (figure 5.2.), type **Laptop** or **iPod** as a description. Click **Submit**.

figure 5.1.

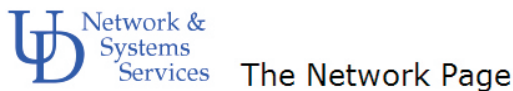

figure 5.2.

The description for your computer network adaptor Ethernet MAC address is:

- Keep current description
- New description:
- Remove description

6. SHUT DOWN your computer.
Wait a minute and turn your computer on.

YOU ARE DONE

NOTE: If you still cannot connect your computer or iPod to UD Network, look for Nermin Zubaca (zuba) at the ELI main building or email him at nzubaca@udel.edu
