

George Christensen is a retired Naval person (enlisted and commissioned grades), a retired registered Nurse (with specialization in acute Hospice care of AIDS patients); and a retired (but still licensed) Massage Therapist. Father of three, and grandfather of five, George is a gay man now in a committed relationship of 29+ years with his partner and best friend, Steve.

He has a Bachelor of General Studies degree from Chaminade College of Honolulu (1971), a Bachelor of Arts degree ("with distinction in History") from the University of Hawaii (1972), an Associate in Applied Science degree in Nursing "cum laude" (1991), and he attended night school classes in the University of Maryland Law School (1980-82). He is also a graduate of the Potomac Massage Training Institute in Washington, DC (1991).

George and Steve relocated to Dover in 2001, finding unequalled value and quality of life in Kent County (after having endured the tension and hassle of Washington area life). Believing that "retirement" need not mean "vegetation," and learning of the University of Delaware MALS Program in late 2006, George immediately began the administration processes for matriculation and he began MALS classes in February 2007.

A life long addict of "classical" (or, if you will "concert") music, George is a 25+ year season subscriber to National Symphony Orchestra concerts at the Kennedy Center in Washington. He enjoys theater (and has participated in amateur, or "community theatre," productions for most of his adult life), and he has a unique connection with the U. S. Supreme Court Historical Society as "semi-official keeper of Justices' grave site information." He has had two articles published on that subject (1983, 2008) in the Journal of Supreme Court History.

Concerning his current involvement in post-graduate studies at the University of Delaware, George maintains, "I'm having the time of my life!"
