“I became interested in University of Delaware’s MALS program because of the variety of subject matter it offered. It was apparent to me from the very start, that this program offered so much more than interesting topics and issues. The students who enroll in the program come from all walks of life and are a huge part of what makes MALS classes so stimulating. I would highly recommend the MALS program to anyone who possesses a natural curiosity about the world around us and enjoys learning for the sake of learning.”
