

"Close Concerns and Distant Places"

Clara Bargellini

Instituto de Investigaciones Estéticas

Universidad Nacional Autónoma de México

The presentation will offer thoughts on various aspects of the experience of studying art and architecture at the margins of “centers.” Partly, this will be done within the framework of some of the considerations that have been generated from the concerns of artistic geography. Besides historiography, I shall deal directly with image/objects at the margins as evidence for multiple aspects of changes in status and interpretations.
