MINOR IN FORENSIC SCIENCE CHECKLIST

The interdisciplinary forensic science minor is designed to prepare students earning a Bachelor of Science degree in a life science or basic science for an entry-level position in the field of forensic science. In addition, this minor will appeal to students wanting a fundamental knowledge of forensic science who do not want a position as a forensic scientist. The minor provides students with an understanding of the judicial system, procedures for proper collection and preservation of physical evidence, laboratory skills, and knowledge about the methods of analysis of physical evidence. **The minor requires a minimum of 18 credits.** Students must earn grades of C- or higher in all required and elective courses.

Name: _____

ID#: _____

THE MINOR IN FORENSIC SCIENCE REQUIRES 18 CREDITS. -Before beginning each course, the student must meet the required course prerequisite(s).	Course Credits	Completed
REQUIRED COURSES
