2. Dave announced that Carol was reimbursed \$200 for her trip to the National Convention where she presented "Hemp-The Next ECO-Revolution?". Dave will email the statement files.
3. Carol proceeded to her presentation and discussed the virtues of hemp – not the marijuana variety. There is a bill supporting the growing of this plant and can be reviewed at [www.opencongress.org](http://www.opencongress.org). The plant has a myriad of uses with higher yields for the ingredients extracted from it, than from presently used plants such as corn or trees.
