

PUT SAFETY INTO PRACTICE !
DELAWARE PESTICIDE APPLICATOR TRAINING
EVALUATION

Pesticide drift may contaminate the environment, the public, and the applicator. This conference was designed to provide you with information on preventing drift. We hope you have learned new skills that you will adopt in your work while handling and applying pesticides.

We want to know if Delaware's Pesticide Applicator Training is meeting your needs. Your response on this form will help us design better educational programs. Thanks for your help.

<p>2. List three new safety practices that you can use in your work that will prevent pesticide drift:</p> <p>a. _____</p> <p>b. _____</p> <p>c. _____</p>	<p style="text-align: center;">(Do not mark in this space)</p> <p>[] Used at least once [] Adopted routinely</p> <p>[] Used at least once [] Adopted routinely</p> <p>[] Used at least once [] Adopted routinely</p> <p>[] Have not applied pesticides since training.</p>
