

Reading the Degree Progress Report

The following examples are intended for illustration purposes only. Individual degree progress reports differ. A degree progress report can be viewed either as an on-screen online version or as a printable PDF. Samples of both are shown for each example with the online version first, followed by the PDF.

General Terms

Quality Points: The quality points for each course are obtained by multiplying the quality point value for each grade by the credits for that course: e.g., a grade of A in a three credit course would earn 12 quality points (4 quality points x 3 credits).

Units=credits

Substitution-Course Directive :

A student may request permission to substitute one course for another with no reduction in the total number of credits required for the degree.

Residency: To be eligible to receive a University of Delaware degree, admitted students must complete 90 of the first 100 credits or 30 of the last 36 credits, full- or part-time, at the University of Delaware. This residency pertains to whether or not you have enough University of Delaware credits to receive a degree from the University of Delaware. It has nothing to do with whether or not you are classified as a Delaware resident for fee purposes.
