In some cases, alcohol consumption may lead to alcohol poisoning and be life threatening. When a person is experiencing alcohol poisoning, you may notice the signs below. Seek help immediately.

- Inability to rouse the person with loud shouting or vigorous shaking
- Inability of a person who was passed out to remain alert for more than a few minutes
- Slow or irregular breathing
- Weak pulse, very rapid or very slow pulse
- Cold, clammy or bluish skin
- Vomiting while passed out, not waking up after vomiting, or incoherent while vomiting
