

UNIVERSITY OF DELAWARE
ANNUAL DISCLOSURE INFORMATION – SERIES 1997 AND 2004A BONDS

PROJECT FACILITIES

The University of Delaware's housing system accommodates approximately 7,300 students in 52 dormitory buildings and several special interest housing units at the main campus in Newark, Delaware. This represents approximately 48% of the total number of undergraduate students attending the University at the main campus. Freshmen are required to live in University housing and agreements are enforced for the entire academic year.

The University's main campus in Newark offers students numerous dining hall, snack bar, restaurant and convenience store facilities with a combined seating capacity of approximately 2,500. During the 2006-07 academic year, approximately 7,400 students will have some type of meal contract.

ABSENCE OF MATERIAL LITIGATION

There is no litigation of any nature pending or, to the knowledge of the University, threatened against the University at the date of this Disclosure Report which would have a material adverse effect on the University, its operations or the Pledged Revenues.

FACULTY AND STAFF

The University faculty and staff consist of approximately 3,770 full-time and 232 part-time employees. Members of the University of Delaware's instructional staff for Fall 2006 total 1,117 full-time members: 367 professors; 326 associate professors; 304 assistant professors; 119 instructors and 1 lecturer. Approximately 77% of the University's full-time faculty is tenured.

The University faculty is represented by the American Association of University Professors, the contract with which terminates June 30, 2008. The maintenance and service employees are represented by two locals of the American Federation of State, County, and Municipal Employees, the contract with which terminates December 31, 2008. The uniformed officers of the Department of Public Safety are represented by Fraternal Order of Police, the contract with which terminates June 30, 2008.

Debt Service Coverage

The following four pages present the debt service coverage ratio calculated as described in the most recent Official Statements for each Fiscal Year shown with the modification hereinafter described. This presentation assumes existing interest rate exchange agreements (SWAPS) are not terminated and continue in effect for the life of the bond issues.

In the most recent official statement the Maximum Annual Debt Service for each year was based on the bonds outstanding at the end of that year only. In the revised presentation attached, Maximum Annual Debt Service for each year shown is based on all bonds outstanding as of 12/31/06.

The University anticipates an additional bond offering in the spring 2007. The offering anticipated would be for the renovation and renewal of dormitories initially constructed in the 1960's and 1970's.

(1) Estimated

This Section From Series 2005 Official Statement

Debt Service Requirements

The following table sets forth, for each of the periods indicated, the estimated amount required in such period to be made available for debt service after the issuance of the Series 2005 Bonds based upon the following calculations and assumptions for each issue:

- Debt service on the Series 1997 Bonds refunded is excluded from the table.
- Debt service on the Series 1998 Bonds is calculated assuming a 4.70% interest rate (excluding the cost of remarketing and liquidity) based on an existing BMA-based interest rate exchange agreement (“1998 Swap”) and assuming amortization of the balloon principal payment due in November, 2023 during the years 2005 to 2022 inclusive in annual amounts ranging from \$700,000 to \$3,200,000. The 1998 Swap is terminable subject to certain conditions at the option of the Counterparty beginning in August 1, 2008; in the event of any such termination, interest on the Series 1998 Bonds, which accrues at a variable rate, could exceed the amounts included in the following table. The University has no legal obligation to retire any Series 1998 Bonds prior to their maturity in 2023.
- Debt service on the Series 2001A Bonds is calculated assuming a 4.15% interest rate (excluding the cost of remarketing and liquidity) based on an existing BMA-based interest rate exchange agreement (“2001A Swap”) and principal amortization based on the mandatory redemption requirements of the Series 2001A Bonds. The 2001A Swap is terminable at the option of the Counterparty under certain circumstances; in the event of any such termination, interest on the Series 2001A Bonds, which accrues at a variable rate, could exceed the amounts included in the following table.
- Debt service on the Series 2001B Bonds is calculated assuming a 4.05% interest rate (excluding the cost of remarketing and liquidity) based on an existing BMA-based interest rate exchange agreement (“2001B Swap”) and principal amortization based on assumed amortization of the balloon principal payment due in November, 2026 during the years 2005 to 2025, inclusive, in annual amounts ranging from \$565,000 to \$1,370,000. The 2001B Swap is terminable at the option of the Counterparty, under certain circumstances, beginning July 1, 2008; in the event of any such termination, interest on the Series 2001B Bonds, which accrues at a variable rate, could exceed the amounts included in the following table. The University has no legal obligation to retire any Series 2001B Bonds prior to their maturity in 2026.

This Section From Series 2005 Official Statement

- Debt service on the Series 2004A Bonds is based upon the actual fixed rates of interest and the amortization requirements for such bonds. Debt service on the Series 2004B Bonds is calculated based on an assumed interest rate of 3.25% per annum, and assuming principal amortization of the balloon principal payment due November 1, 2034 during the fiscal years 2012 to 2035 inclusive in annual amounts ranging from \$1,115,000 to \$2,460,000. The assumed interest rate (excluding the cost of remarketing and liquidity) is based on an existing interest rate exchange agreement (“2004B Swap”). Under the 2004B Swap, the University receives a variable rate equal to 67% of LIBOR which may not be sufficient to provide for the payment of the variable rate which the University must pay on the Series 2004B Bonds. If such amounts are insufficient, the University’s debt service costs for the Series 2004B Bonds will exceed the amount shown in the following table. The University has no legal obligation to retire any Series 2004B Bonds prior to their stated maturity date of November 1, 2034.
- Debt service on the Series 2005 Bonds is calculated based on: (i) an assumed interest rate of 3.75% per annum (excluding the cost of remarketing and liquidity) based on an existing interest rate exchange agreement (“2005 Swap I”), applicable to a portion (in the amount of \$12,945,000) of the balloon principal payment due on November 1, 2035, and assuming amortization of such portion during the fiscal years 2006 to 2023 inclusive in annual amounts ranging from \$70,000 to 1,205,000; (ii) an assumed interest rate of 3.87% per annum (excluding the cost of remarketing and liquidity) based on an existing interest rate exchange agreement (“2005 Swap II”), applicable to the remaining portion (in the amount of \$37,000,000) of the balloon principal payment due on November 1, 2035, and assuming amortization of such portion during the fiscal years 2007 to 2036 inclusive in annual amounts ranging from \$635,000 to \$2,115,000. Under the 2005 Swap I and 2005 Swap II, the University receives a variable rate equal to 67% of LIBOR which may not be sufficient to provide for the payment of the variable rate which the University must pay on the Series 2005 Bonds. If such amounts are insufficient, the University’s debt service costs for the Series 2005 Bonds will exceed the amount shown in the following table. The University has no legal obligation to retire any Series 2005 Bonds prior to their stated maturity date of November 1, 2035.

* Maximum Annual Debt Service in FY 2013

January 31, 2007

UNIVERSITY OF DELAWARE
Interest Rate Swaps

The University of Delaware (UD) has entered into three interest rate SWAP agreements with Morgan Guarantee Trust (MGT). One issued in connection with the Series 1998 Bonds has MGT paying UD the BMA rate and UD paying MGT a fixed rate of 4.70% on a value of \$31,000,000, declining concurrently with bond maturities. MGT has the option of terminating this SWAP agreement at any time after ten years if BMA exceeds 7.75% for any rolling consecutive 12-week period.

The second agreement issued in connection with the Series 2001A Bonds has MGT paying the UD the BMA rate and the UD paying MGT a fixed rate of 4.15% on a value of \$25,610,000, declining concurrently with the bond retirement schedule. MGT has the option of terminating this SWAP agreement after May 1, 2004 or any day that the daily weighted of BMA for any immediately preceding rolling 180 day period (after October 31, 2003) exceeds 7.00% per annum.

The third agreement issued in connection with the Series 2001B Bonds has MGT paying the UD the BMA rate and the UD paying MGT a fixed rate of 4.05% on a value of \$21,200,000, declining concurrently with the bond retirement schedule, as published in the Official Statement. MGT has the option of terminating this SWAP agreement after May 1, 2006 or any day that the daily weighted of BMA for any immediately preceding rolling 180 day period (on or after May 1, 2007) exceeds 7.00% per annum.

The UD has also entered into three interest rate SWAP agreements with Morgan Stanley Capital Services, INC. (MSCS).

The first, issued in connection with the Series 2004 B has MSCS paying UD 67% of the US\$ one month LIBOR and the UD Paying MSCS a fixed rate of 3.25%, declining concurrently with the bond retirement schedule, as published in the Official Statement.

The second and third interest rate exchange agreements with MSCS were forward SWAPS, issued on July 30, 2004. The second, issued in the amount of \$37,000,000 and an effective date of July 14, 2005, has MSCS paying UD 67% of US\$ one month LIBOR and the UD paying MSCS 3.867%. The third was also issued on July 30, 2004, with an effective date of July 14, 2005 and in the amount of \$12,945,000. MSCS will pay UD 67% of US\$, one month LIBOR and UD will pay a 3.75% fixed rate to MSCS. The notional amounts of the agreement decline based on the debt retirement schedule contemplated for the Series 2005 A and B bonds issued in July, 2005.

There is also an interest rate SWAP agreement related to the Blue Hen Hotel LLC bonds which are payable by the LLC, but are guaranteed by the University. This agreement, with PNC Bank, has PNC paying the LLC the USD one month LIBOR rate and the LLC paying PNC a fixed rate of 5.5% on a value of \$11,500,000, declining concurrently with the bond redemption

schedule contemplated for the bonds at the time of issue. PNC has the option of terminating the SWAP agreement on any reset date from March 1, 2007 up to and including August 1, 2027 if USD-LIBOR-BAA-one month rate equals or exceeds 9.00% on a rolling daily average over the previous six months.

Obligations Under Capital Leases

The University has obligations under capital leases that amounted to \$9,419,000 and \$9,818,000 as of June 30, 2006 and 2005, respectively. The University's obligation at June 30, 2006 was a building lease with Delaware Technology Park for the Delaware Biotechnology Institute, a unit of the University. The lease consists of annual lease payments ranging from \$345,000 to \$935,000 to be paid over a 20-year term.
