Do natural hazards like flooding and severe storms impact your community's infrastructure? Are you interested in learning more about community resilience?

Join the Grant Assistance Program (GAP) team for a workshop on the Federal Emergency Management Agency's (FEMA) Building Resilient Infrastructure and Communities (BRIC) and Flood Mitigation Assistance (FMA) programs!

Learn about this year's funding opportunities and the submission requirements, how to successfully complete an application, and how the GAP team and other statewide resources can support your municipality in project planning and implementation.

Contact ipa-grants@udel.edu with questions about this workshop.
