3. Method of Play

There will be three types of questions used:

- **Regular** questions (worth 1 point each) to which any member of either team may respond. If a regular question is answered incorrectly, it is then offered to the other team for a chance to answer.
- **Toss-up** questions (worth 1 point each) to which any member of either team may respond. [The only difference between a regular and a toss-up question would be that toss-up questions would have a bonus question attached to each and, in general, would be somewhat more difficult than the regular questions.]
- **Bonus** questions (worth a pre-determined 1-3 points); all parts of the bonus question must be answered before any points will be awarded. No part of the bonus question will be repeated, nor will any additional information be given to the contestants relative to the questions. Any member of the team winning the toss-up may provide answers to bonus questions. Contestants on the same team may confer with each other prior to answering a bonus question. If a bonus question is answered incorrectly it is not offered to the other team for a chance to answer.

There will be no spelling questions. Points will not be deducted for incorrect answers. The decision of the judge as to the acceptability of an answer will be final.

If a question is interrupted during the reading of it, the moderator will stop reading as soon as a buzzer is activated. The contestant has five seconds after being acknowledged, to begin their answer. If the answer given is correct for the way the question was written, it will be accepted. If the answer given is correct for only the portion of the question heard, but wrong for the way the question is written, the answer

will not be accepted. If the question was interrupted, the judges will not be allowed to ask for any type of clarification of the answer given.

4. Awards

The Delaware State Fair will award premiums to the top three teams in competition.

Team Awards:	1st	2nd	3rd
