Consumer Comparison Shopping: While choosing your purchase of a clothing item for the Ready to Wear Contest, you are required to compare 3 similar articles. The articles do not have to be found in different stores, however, they should be different brands. You will need to complete a separate “Consumer Comparison Sheet” for each article in your outfit that was purchased to be worn with the current clothing item you already had in your wardrobe inventory. As you compare the articles in the store, put an (x) in the box that best describes the article.

HIGHLIGHT the article you chose to purchase.
