

ENVIRONMENTAL, HEALTH AND SAFETY  
DISPOSAL OF AEROSOL CANS

Starting immediately all aerosol cans that are no longer of use to you (empty or full) are to be treated as chemical/hazardous waste. They are to be included in the Environmental, Health and Safety (EHS) waste pickup system.

- Do NOT puncture the can. Leave the cap and spray nozzle on or the spray nozzle can be removed by pulling it away from the can.
- They should be placed in a plastic bag and labeled with a chemical waste tag.
- They should NOT be put into the lab solid waste containers
- Empty or full they are NOT to be put into the general waste baskets
