

Curriculum Vitae

David Louis Kirchman

School of Marine Science and Policy
University of Delaware
Lewes, Delaware 19958
(302) 645-4375; Fax: (302) 645-4007
kirchman@udel.edu

Education

Ph.D., 1982, Environmental Engineering (Microbiology), Harvard University
M.S., 1979, Environmental Engineering, Harvard University
B.A., *magna cum laude*, 1976, Phi Beta Kappa, Phi Sigma, Biology, Lawrence University

Positions

July 1998-present	Maxwell P. and Mildred H. Harrington Professor of Marine Science, School of Marine Science and Policy
Jan 2011-2014	Adjunct Scientist, National Institute of Oceanography, Goa (India)
January 2009-2014	Director, Center for Environmental Genomics
July 2001-June 2006	Associate Dean, College of Marine Studies (now College of Earth, Ocean, and Environment), University of Delaware
Mar 1999-Aug 1999	Fellow, Hanse Institute for Advanced Studies, Delmenhorst, Germany
July 1994-June 1998	Marine Biology/Biochemistry Program Director, College of Marine Studies
June 1992-present	Professor, College of Marine Studies
June 1989-June 1992	Associate Professor, College of Marine Studies
Jan 1986-June 1989	Assistant Professor, College of Marine Studies
Jan 1985-Dec 1985	Postdoctoral Research Associate, Department of Molecular Genetics and Cell Biology, University of Chicago
Sept 1982-Dec 1984	Postdoctoral Fellow, Department of Microbiology, University of Georgia

Teaching Experience

MAST 427 Marine Biology
MAST 607 Writing Papers in the Marine Sciences
MAST 618 Marine Microbiology
MAST 623 Marine Physiology
MAST 624 Biological Oceanography
MAST 627 Marine Biology and Biological Oceanography
MAST 634 Marine Biochemistry

MAST 816 Biological Oceanographic Processes
MAST 818-12 Microbes and the Greenhouse Problem
MAST 828 Advanced Marine Microbiology
MAST 827-10 Microbiology of Marine Food Webs
MAST 821 Marine Biology Seminar

1980-1982 Harvard University Tutorial Program, Biology Department. Selected for two consecutive years in competitive program to teach a course in microbial ecology.
1978-1979 Teaching Fellow for Environmental Microbiology, Harvard University. Designed and organized laboratory experiments for course.

Graduate Students Advised: Gerardo Chin Leo (1988), Edward Urban (1989), Michael Montgomery (1992), Richard Keil (1991), Matthew Hoch (1992), James Rich (1994), Cynthia Smialek (1997), Niels Borch (1997), Jessica Moore (1998), Kimberly Hoffman (2001), Sinéad Ní Chadhain (2001), Dawn Castle (2003), Kathleen Preen (2003), Rex Malmstrom (2005), Paul Jones (2005), Hila Elifantz (2006), Lisa Waidner (2007), Vanessa Michelou (2009), Tiffany Straza (2009), Glen Christman (2009), Mrinalini Nikrad (2013) and Monica Stegman (2013), Thomas Lankiewicz (2014)

Undergraduate Students Advised: Kirchman has advised undergraduate students in the summer as part of an NSF REU program and is co-PI on the current program. Every summer from 1996-2012, he also mentored undergraduate students from Lincoln University, the nation's oldest historically Afro- American college, as part of a summer intern research program. This program was supported by grants from DOE and NSF. Kirchman is also currently advising four undergraduate students as part of the marine sciences major in CEOE.

Grants

Wisconsin Honor Grant, 1972

“Role of Attached Bacteria in Aquatic Ecosystems”, Ph.D. Dissertation Improvement Award, June 1979-May 1982, National Science Foundation (\$4,000).

“Bacterial feeding by freshwater macro-zooplankton, microzooplankton, and myxotrophic algae”, June 1984-May 1986, National Science Foundation (\$200,000; with K.P. Porter).

“Roles of bacteria and the microbial loop in trophic dynamics of the subarctic Pacific Ocean”, December 1986-November 1989, National Science Foundation (\$266,913).

“Transposon mutagenesis of chitin-degrading marine bacteria”, January 1987-December 1987, University of Delaware Research Foundation (\$13,000).

“Role of proteins in microbial film development”, February 1987-January 1990, Office of Naval Research (\$386,444; with S.D. Dexter).

“Effect of geochemical sinks and microbial activity on inorganic nutrients in the Delaware Estuary”, February 1987-January 1989, Sea Grant (\$203,600; with J.H. Sharp).

“Balance between oxygen production and consumption in estuarine waters”, February 1989-January 1991, Sea Grant (\$24,910; with R. Geider and J.H. Sharp).

“Role of adsorbed proteins in bacterial colonization and growth on surfaces”, February 1989-January 1991, Sea Grant (\$33,648).

“Nitrogen uptake by heterotrophic bacteria during the North Atlantic spring bloom”, May 1989-

- November 1990, National Science Foundation (\$4,000).
- “Regulation of attached bacterial growth by adsorbed proteins”, May 1990-April 1992, Office of Naval Research (\$164,390).
- “Excretion of dissolved organic matter by protozoa”, September 1990-December 1991, Undergraduate Research, National Science Foundation (\$3,200).
- “Transformation of labile dissolved organic matter”, January 1992-December 1992, Undergraduate Research, National Science Foundation (\$3,750).
- “Bacterial fouling of metal surfaces”, February 1991-January 1993, Sea Grant (\$29,000).
- “What regulates assimilation of inorganic nitrogen by heterotrophic bacteria?”, July 1991-July 1993, National Science Foundation (\$100,000).
- “Mangrove detritus: Sink or link”, Oct 1992-Sept 1993, National Science Foundation (\$91,166; with C. Epifanio).
- “Bacterial production and N uptake in the equatorial Pacific”, August 1991-December 1993, National Science Foundation (\$178,906).
- “The effect of bacteria and microbial metabolites on mineral dissolution in subsurface environments”, June 1991-May 1994, Department of Energy (\$351,643; with W. Ullman).
- “Molecular characterization of specific attachment by a marine bacterium: A common motif?” January 1993-December 1996, Office of Naval Research (\$331,879).
- “Purchase of a continuous-flow nutrient analyzer”, October 1992-September 1993, National Science Foundation (\$80,000; with G. Luther).
- “Degradation of particulate organic matter in coastal oceans: The chitinase system at a molecular level”, October 1993-September 1996, Department of Energy (\$312,265).
- “AASERT: Molecular characterization of specific attachment by a marine bacterium” September 1993-August 1996, Office of Naval Research (\$86,475).
- “Degradation of colloidal organic material and the formation of semi-refractory DOM”, January 1995-December 1997, National Science Foundation (\$268,828).
- “US-Indo Visiting Scientist Program”, September 1995 - August 1997, Office of Naval Research (\$60,000).
- “Bacterial production uncoupled from primary production: Implications for DOM fluxes in the Southern Ocean (JGOFS)”, May 1996-April 1999, National Science Foundation (\$330,911).
- “Regulation of attachment by a marine bacterium: Bioadhesion proteins”, June 1996-May 1999, Office of Naval Research (\$369,313).
- “Bacterial degradation of organic matter at the molecular level: Chitinases as tracers for carbon export from coastal oceans”, November 1997-October 2000, Office of Energy Research (\$306,176).
- “Biological and chemical controls on Fe uptake by marine phytoplankton and bacteria”, April 1998-March 2000, National Science Foundation (\$391,838; with D. Hutchins and G. Luther).
- “Coordination for visiting scientists: US-Indo program”, May 1998-August 1999, Office of Naval Research (\$21,306).
- “Effects of terrestrial carbon on microbial community structure and function in the Hudson River”, November 1999-October 2001, Hudson River Foundation (\$142,375; with S. Findlay).
- “Impact of organic pollutants on microbial community structure in estuarine ecosystems”, February 1999-December 2001, NOAA Sea Grant (\$54,000).
- “Formation of modified biochemicals and their contribution to dissolved organic nitrogen in marine ecosystems”, October 1999- September 2002, National Science Foundation (\$595,000; with R. Harvey).
- “Hydrolysis and uptake of organic material by major bacterial groups in a coastal ocean”, December

- 2000-November 2003, Department of Energy (\$358,934).
- “DOM consumption by marine bacterioplankton: Is the *Cytophaga-Flavobacter* group important?”
August 2000-July 2003, National Science Foundation (\$153,963; with M. Cottrell).
- “Metagenomic analysis of uncultured *Cytophaga* and β -1,4 glycanases in marine consortia”, Department of Energy, September 2001-August 2003 (\$407,564).
- “The biogeochemistry and polymer physics of seawater gels: A new paradigm for the microbial loop and global element cycles”, October 2001-January 2006, UW/ National Science Foundation (\$244,936).
- “Carbon cycling in the Chukchi and Beaufort Seas”, January 2002-December 2006, National Science Foundation (\$431,767).
- “Quantitative impact of organic pollutants on microbial community structure and activity in estuarine ecosystems”, February 2002-January 2003, Sea Grant-NOAA (\$75,758; with S.C. Cary).
- “Cycling of DOC and DON by novel heterotrophic and photoheterotrophic bacteria in the ocean”, Department of Energy, September 2003-August 2007 (\$595,000).
- “Bacterial production and community structure during the North Atlantic spring bloom”, March 2005-February 2008, National Science Foundation (\$302,000).
- “MO: Photoheterotrophic microbes of the Mid-Atlantic Bight”, January 2006-December 2011, National Science Foundation (\$814,401).
- “IPY: Chemolithoautotrophy in the Arctic Ocean—environmental genomics and functional analyses”, April 2007-March 2010, National Science Foundation (\$399,967).
- “REU site University of Delaware summer undergraduate research program”, March 2005-February 2008, National Science Foundation (\$397,904; with A. Dittel).
- “Reservoirs of pathogenic and pathogen-related *Epsilonproteobacteria* in Delaware coastal water”, February 2007-January 2009, Sea Grant NOAA (\$37,300; with B. Campbell).
- “URM collaboration: Biology of an urbanized estuary”, September 2007-August 2012, National Science Foundation (\$285,962).
- “The role of microbial food webs in carbon fluxes and shelf-basin exchange in the Arctic Ocean”, September 2008-August 2011, National Science Foundation (\$266,139).
- “Characterization of methane degradation and methane-degrading microbes in Alaska coastal waters”, October 2008-September 2010, DOE-NETL (\$272,294).
- “Collaborative research: Are abundant bacteria more active than rare bacteria in the Sargasso Sea?”, October 2008-September 2011, National Science Foundation (\$445,461; with B. Campbell).
- “Photoheterotrophic microbes in the West Antarctic Peninsula marine ecosystem” (Co-PI, with M. Cottrell), National Science Foundation, August 2009-July 2012 (\$425,541)
- “Collaborative Research: Activity and abundance of photoheterotrophs fueled by photochemically-produced substrates” (Lead PI, with M. Cottrell and D. Kieber), National Science Foundation January 2011- December 2014 (\$490,925)
- “Growth rates of bacterial taxa in coastal marine ecosystems” (Lead PI is B. Campbell), National Science Foundation, October 2012- September 2016 (\$368,476 for Delaware component)

Professional Activities

Reviewer for: EPA, DOE, NASA, NIH, NSF, (Biol. Oceanogr., Ecology, Ecosystems, Cell Biology, Biochemistry, Polar Programs), Sea Grant, Hudson River Foundation, NSF- State of Montana, Natural Environment Research Council (UK), Appl. Environ. Microb., Biofouling, Biogeochemistry, Bioscience, Canadian J. Microbiol., FEMS Microb. Ecol., Hydrobiologie, J. Industrial Microbiol., J. Marine Res., J. Marine Systems, J. Exper. Mar. Biol. and Ecol., J. Geophys. Res., Limnol. Oceanogr., Mar. Biol., Mar. Chem., Mar. Ecol. Progr. Ser., Microbiology-U.K., Microb. Ecol., Nature, Science, Polar Biology, Water Research, Estuaries, Austrian National Science Foundation, International Science Foundation, National Institute of Standards and Technology (DOC), Journal of Molecular Microbiology and Biotechnology, PNAS, ISME J., Environmental Microbiology, Molecular Ecology, Climate Change, American Naturalist, PLoS Biology, PLoS One, Nature-Geosciences, BMC Microbiology, BMC Genomics, Deutsche Forschungsgemeinschaft (German NSF)

DOE Genomes to Life Review Panel (2003)

DOE Microbial Sequencing Review Panel (2006, 2010, 2011, 2012)

DOE Bioremediation Review Panel (2008)

NIEH-NSF Panel (2003)

NSF Review Panels, Biological Oceanography (ten since 1987)

NSF Review Panel, Microbial Observatory (2006)

Session Chairman for AGU-ASLO meetings (1987, 1988, 1998, 1999, 2001)

Functional Group Leader, Biotechnology UD Sea Grant Program (1988-1996)

Session Chairman for International Symposium on Microbial Ecology, Japan (1989)

Chair - Elect, Division N, American Society of Microbiology (1989)

Chair, Division N, American Society of Microbiology (1990)

Associate Editor, *Limnology and Oceanography* (1990-1992)

Editor-in-chief, *Limnology and Oceanography* (1993-1998)

Co-Convener of Seminar, ASM annual meeting (1990, 1993)

Symposium on Coastal Ocean Processes, NSF (1990)

Review of DOE Coastal Ocean Program (1991)

Organizer of ONR-Biofouling Seminar Series (1991)

Maryland Sea Grant Review Panel (1993)

Editorial Board, *Microbial Ecology* (1991-1993)

Editorial Board, *Marine Microbial Food Webs* (1992-1994)

Editorial Board, *Aquatic Microbial Ecology* (1995-2006)

Editorial Board, *Applied and Environmental Microbiology* (2002- 2008)

Editorial Board, *Biofouling* (1996-2001)

Editorial Board, *FEMS Microbiological Ecology* (1997 -)

Editorial Advisory Board, John Wiley & Sons (1997-)

Editorial Board, ISME Journal (2011-)

Editorial Board, PLoS One (2012-2013)

Editorial Board, Microbiome (2012-)

Rapporteur for NATO ARW “Towards a model of biogeochemical ocean processes”, Bonas, France (1992)

Organizer for 15th International Botanical Congress, Japan (1993)

Review panel for EPA Biotechnology Risk Assessment Programs (1994)

Rapporteur for Workshop on Aquatic Microbial Ecology, Konstanz, Germany (1994)
External examiner on Ph.D. committees: Umea, Sweden (1995), Sydney, Australia (1998), Uppsala, Sweden (2005), Newfoundland University (2006), University of Montreal (2007), University of Paris (2008), Flinders University (Australia) (2011 and 2014), University of Bergen, Norway (2012), UPMC University of Paris 06 (2013), Uppsala, Sweden (2015)
ASM committee on global change (1999)
NSF-sponsored EDOCC Workshop (2000)
External Science Advisory Board, Uppsala Microbiomics Center (Sweden), (2009-2012)
Chair of Gordon Conference on Marine Microbes (2010)
Gulf of Mexico Research Initiative panel (2012)
Moore Foundation review committee (2012)
WHOI promotion and tenure review panel (2012, 2013)
NAKFI Microbial Ecosystem Services Expert Workshop (2013)
NSF Ocean Acidification Review Panel (2014)

Honors

Fulbright Fellowship (declined), 1982
Appointed Name Professor, University of Delaware, 1998
Highly Cited Researcher (ISIHighlyCited.com), 2006
Faculty of 1000, 2006-2008
American Academy of Microbiology, 2008
Francis Alison Award, University of Delaware, 2010 (University's highest faculty award)
ASLO Fellow, 2015

Selected Service Activities for College and University of Delaware

Associate Dean (2002-2006)
Marine Biology/Biochemistry Program Director (1994-1998)
Promotion and Tenure Committee (1991-1993; 2006-2008)
Chair, Promotion and Tenure Committee (1993)
Chair, Promotion and Tenure Committee (2007-2008)
Chair, Search Committee for Senior Geological Oceanographer (1998)
Chair, Ship Advisory Committee (2000-2001)
Chair, Committee for R/V *Cape Henlopen* Replacement (2000-2004)
Chair, Search committee for phytoplankton oceanographer (2006)
Chair, Search committee for molecular microbial ecologist (2008)
Chair, Promotion and Tenure Committee (2013-2014)
Chair, CEOE Promotion and Tenure Committee (2015-2016)
Chair, CEOE Awards Committee (2018-2019)

Service on the following search committees

Head of Department of Biology (College of Arts and Sciences) (1995)
Phytoplankton Oceanographer (1989; 1996; 2006)
Associate Dean (1993)
Molecular Environmental Microbiologist, College of Agriculture and Natural Science (2000)

Molecular Biologist (1996)
Cosgrove Chair (2011-2012)

Invited Presentations at National and International Meetings

- “The Activity of Attached and Unattached Bacteria in Marine Systems”, American Society of Limnology and Oceanography, Annual Meeting, 1983.
- “Trophic Dynamics of Particle-bound Bacteria in Pelagic Ecosystems”, International Symposium on Detritus in Aquaculture, Bellagio, Italy, 1985.
- “Amino Acid Incorporation Versus Biosynthesis: Implication for Measuring Rates of Bacterial Production in Marine Systems”, American Geophysical Union-American Society for Limnology and Oceanography, 1986.
- “Immunological Methods to Examine Adsorbed Proteins in Marine Waters”, conference on Basic Research in Marine Biodeterioration, University of Southern California, Los Angeles, CA, 1987.
- “Control of Bacterial Production in Marine Ecosystems”, American Society for Limnology and Oceanography-American Geophysical Union, 1988.
- “Control of Bacterial Production and Nitrogen Use in Marine Ecosystems”, Fifth International Symposium on Microbial Ecology, Kyoto, Japan, 1989.
- “Proteins and Growth of Attached Bacteria”, American Society for Microbiology, 1990.
- “Bacterial Production and Nitrogen Uptake in the Delaware Estuary”, American Chemical Society, 1990.
- “Roles of Heterotrophic Protozoa in the Matter Cycling Within Aquatic Ecosystems”, V International Congress of Ecology, Yokohama, Japan, 1990.
- “Organic and Inorganic Nitrogen Uptake by Heterotrophic Bacteria in Pelagic Ecosystems”, V International Workshop on Carbon Cycle, Copenhagen, Denmark, 1991.
- “Heterotrophic Growth of Bacteria”, Symposium of the Marine Biology Ph.D. Program, Haren, The Netherlands, 1992.
- “Coupling of C and N Uptake by Heterotrophic Bacteria”, XV International Botanical Congress, Yokohama, Japan, 1993.
- “Bacterial Degradation of Polymeric Organic Matter in the Ocean”, DOM Dynamics and Microbial Processes in Marine Environments Workshop, Hakone, Japan, 1996.
- “Marine Bacteria and Dissolved Organic Material in Global Carbon Budget's, First Mid-Atlantic Microbiology Educators Conference, Hood College, Frederick, Maryland, 1996.
- “The Role of Exopolymers in Natural Microbial Communities”, American Society for Microbiology”, 1996.
- “Degradation of Natural Dissolved Organic Material by Marine Bacteria: Global Carbon Cycles from a Molecular Level”, Gordon Conference in Applied Microbiology, 1997.
- “Hydrolysis and Solubilization of Particulate Detritus to DOM by Marine Bacteria: Chitin as a Model System”, AGU-ASLO, 1998.
- “Uptake of Specific DOM Components by Bacterial Groups in the Oceans”, Biocomplexity of Carbon Cycling in the Oceans, Kyoto, Japan, 2001.
- “Bacteria and DOM”, Three Lectures at a NATO ASI, “Modeling Global Carbon Cycles”, Ankara, Turkey, 2002.
- “Lessons from Molecular Microbial Ecology for Understanding Organic Material in Aquatic

- Ecosystems” Organic Geochemistry Gordon Conference, August 8-12, 2004.
- “Marine Microbial Ecology”, Mini-course at Hong Kong Science and Technology University, July 4-17, 2005
- “Regulation of Bacterial Communities by DOM in Aquatic Ecosystems”, Symposium on Microbial Ecology (SAME), Helsinki, Finland, August 22-26, 2005
- “Activity and Abundance of Specific Bacterial Groups in the Western Arctic Ocean”, BASICS, Banyuls, France, October 20-21, 2005.
- Hong Kong Science and Technology University, Lectures in microbial ecology. Month-long special course, co-taught with Curtis Suttle, University of British Columbia, July 2005.
- “Abundance and Activity of Prokaryotes in the Western Arctic Ocean: Black Boxes to Single Cells”, Keynote lecture, Gordon Conference in Marine Microbial Ecology, July 23-28, 2006
- “Marine Microbes and Global Climate Change”, Keynote lecture, Pioneering Studies by Young Scientists on Chemical Pollution and Environmental Change, Matsuyama, Japan, November 17-19, 2006.
- University of Hawaii, Several lectures in microbial oceanography as part of a special course sponsored by C-More and the Agouron Institute, July 2006.
- “Cold Microbes: From Global Cycles to Genomes”, National Science Teachers Association, March 30, 2007.
- “The Response of Microbes and Lower Trophic Level Dynamics to Climate Change in the Arctic Ocean”, Keynote lecture, International Symposium on Polar and Alpine Microbiology, Banff, Alberta (Canada), May 2008.
- “Arctic Microbial Ecology”, Several lectures as part of a special course in arctic microbiology, held at Svalbard (Norway), July 2008.
- “Community structure and function of heterotrophic bacteria in the oceanic carbon cycle” Keynote lecture: The microbial view of marine biogeochemical cycles, Banyuls (France) May 2010.
- “Photoheterotrophy and the processing of dissolved organic material in coastal oceans” 12th Symposium in Microbial Ecology, Rostock (Germany), September 2011.
- “A molecular view of bacterial communities and dissolved organic material in the Delaware estuary,” ASLO Aquatic Sciences, February 2013.
- “Microbial genomics and the functioning of aquatic ecosystems,” Polo Naval fair, Rio Grande do Sur, Brazil, March 2014.
- “Microbial growth rates in the oceans”, International Symposium in Marine Microbiology, Qingdao, China, May 2015
- “Phytoplankton and dissolved organic matter as drivers of bacterial diversity in the Delaware estuary”, CERF, November 2015
- “Control of the composition and diversity of bacterial communities in an estuary”, Ramon Margalef Summer Colloquium, 2016

Invited Seminars

- Massachusetts Institute of Technology, “Contribution of Particle-bound Bacteria to Heterotrophic Activity”, 1980.
- Marine Biological Laboratory (Woods Hole, MA), “The Ecological Significance of Attached Bacteria in Aquatic Systems”, 1981.
- Stanford University, “Production and Activity of Particle-bound Bacteria in Aquatic Ecosystems”, 1982.
- University of Southern California, “The Roles of Heterotrophic Bacteria in Ecosystems”, 1982.

- University of Georgia, "Uptake of Combined Amino Acids by Bacterial Assemblages in Marine Waters", 1983.
- Skidaway Institute of Oceanography, "Uptake of Amino Acids and Oligopeptides by Bacteria in Aquatic Systems", 1983.
- University of Wisconsin-Milwaukee, "The Significance of Heterotrophic Bacteria in Aquatic Systems", 1984.
- University of Delaware, "Roles of Heterotrophic Bacteria in Aquatic Systems", 1985.
- Max Planck Institute for Limnology (Plön, F.R.G.), "Regulation of Amino Acid Uptake by Natural Bacterial Assemblages", 1985.
- University of Constance (Constance, F.R.G.), "Regulation of Amino Acid Uptake by Natural Bacterial Assemblages", 1985.
- Hopkins Marine Station, Stanford University, "Epiphytic Bacteria and Other Relationships with Algae", 1986.
- Horn Point Environmental Laboratory, University of Maryland, "Uptake of Organic and Inorganic Nitrogen by Heterotrophic Bacteria", 1986.
- Université de Provence (Marseille, France), "Uptake of Organic and Inorganic Nitrogen by Heterotrophic Marine Bacteria", 1987.
- Horn Point Environmental Laboratory, University of Maryland, "Heterotrophic Bacteria in the North Pacific", 1988.
- University of North Carolina, Beaufort Marine Laboratory, "Regulation of Nitrogen and Carbon Uptake by Heterotrophic Bacteria", 1988.
- Texas A&M University, "Control of Nitrogen Uptake and Regeneration by Marine Heterotrophic Bacterioplankton in the Subarctic North Pacific", 1988.
