Introduction

At the University of Delaware, a student enrolled in the Nutrition and Dietetics major is completing the requirements for a Bachelor of Science degree and the Didactic Program in Dietetics (DPD) accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) -

<https://www.eatrightpro.org/acend>

The University of Delaware's DPD is currently granted accreditation status by the Accreditation Council for Education in Nutrition and Dietetics of the Academy of Nutrition and Dietetics, 120 South Riverside Plaza, Suite 2190, Chicago IL 60606-6995, 312-899-0040

If you have any questions or concerns, you may contact:

Andrea Grim, MS, RDN, LDN

Director, Didactic Program in Dietetics

038 Carpenter Sports Building

Phone: 302-831-8611

Email: agrim@udel.edu

Mission Statement

The mission of the Didactic Program in Dietetics (DPD) at the University of Delaware is to provide a comprehensive and high-quality curriculum that prepares graduates to successfully enter a post-baccalaureate program, an ACEND-accredited supervised practice program, and/or a variety of employment opportunities related to nutrition and food.

Program Goals and Outcome Measures

Goal 1: To prepare graduates for acceptance into graduate school or a supervised practice program.

1. At least 25 percent of program graduates apply for admission to a supervised practice program prior to or within 12 months of graduation.
2. Of program graduates who apply to a supervised practice program, at least 90 percent are admitted within 12 months of graduation.
3. Of Program graduates who apply to a graduate program, at least 80 percent are admitted within 12 months of graduation.
4. At least 80 percent of students complete program requirements within 6 years (150% of planned program length)

Goal 2: To prepare graduates with the knowledge and skills required to be successful in an ACEND accredited supervised practice program.

1. At least 80% of supervised practice program directors who respond to a survey will rate our graduates' preparation as "Exceeded expectations" or "Greatly exceeded expectations" when asked to select from greatly exceeded expectations, exceeded expectations, matched expectations, and did not meet expectations.

2. The program's one-year pass rate (graduates who pass the registration exam within one year of first attempt) on the CDR credentialing exam for dietitian nutritionists is at least 80%.

Goal 3: The program will foster experiential learning and leadership opportunities to enrich education and preparation for professional practice.

1. At least 60% of students will complete 75 hours of nutrition or health related experience (volunteer or paid) outside of course work prior to graduation
2. At least 60% of students will have served in leadership roles in student organizations, University programs and/or organizations, and/or professional organizations, as peer mentors or teaching assistants prior to graduation.

Knowledge for Registered Dietitian Nutritionists (KRDN)

The 2022 Accreditation Council for Education in Nutrition and Dietetics (ACEND) Accreditation Standards for Nutrition and Dietetics Didactic Programs requires the curriculum to be designed to ensure the breadth and depth of requisite knowledge needed for entry into supervised practice to become a registered dietitian nutritionist. The program's curriculum must include required components, including prerequisites. The Knowledge for Registered Dietitian Nutritionists (KRDN) Knowledge for Registered Dietitian Nutritionist (KRDN's) are within the required course work. The following is the complete list of the required KRDN's.

- KRDN 1.1 Demonstrate how to locate, interpret, evaluate and use professional literature to make ethical, evidence-based practice decisions.
- KRDN 1.2 Select and use appropriate current information technologies to locate and apply evidence-based guidelines and protocols.
- KRDN 1.3 Apply critical thinking skills.
- KRDN 2.1 Demonstrate effective and professional oral and written communication and documentation.
- KRDN 2.2 Describe the governance of nutrition and dietetics practice, such as the Scope of Practice for the Registered Dietitian Nutritionist and the Code of Ethics for the Profession of Nutrition and Dietetics.
- KRDN 2.3 Assess the impact of a public policy position on nutrition and dietetics profession.
- KRDN 2.4 Discuss the impact of health care policy and different health care delivery systems on food and nutrition services.
- KRDN 2.5 Identify and describe the work of interprofessional teams and the roles of the others with whom the registered dietitian nutritionist collaborates.
- KRDN 2.6 Removed by ACEND 2025
- KRDN 2.7 Describe contributing factors to health inequity in nutrition and dietetics including structural bias, social inequities, health disparities and discrimination.
- KRDN 2.8 Participate in a nutrition and dietetics professional organization and explain the significant role of the organization.
- KRDN 2.9 Defend a position on issues impacting the nutrition and dietetics profession.

- KRDN 3.1 Use the Nutrition Care Process and clinical workflow elements to assess nutritional parameters, diagnose nutrition related problems, determine appropriate nutrition interventions and develop plans to monitor the effectiveness of these interventions.
- KRDN 3.2 Develop an educational session or program/educational strategy for a target population.
- KRDN 3.3 Demonstrate counseling and education methods to facilitate behavior change and enhance wellness for individuals and groups.
- KRDN 3.4 Practice routine health screening assessments, including measuring blood pressure and conducting waived point-of-care laboratory testing (such as blood glucose or cholesterol).
- KRDN 3.5 Describe concepts of nutritional genomics and how they relate to medical nutrition therapy, health and disease.
- KRDN 3.6 Develop nutritionally sound meals, menus and meal plans that promote health and disease management and meet client's/patient's needs.
- KRDN 4.1 Apply management theories to the development of programs or services.
- KRDN 4.2 Evaluate a budget/financial management plan and interpret financial data.
- KRDN 4.3 Demonstrate an understanding of the regulation system related to billing and coding, what services are reimbursable by third party payers, and how reimbursement may be obtained.
- KRDN 4.4 Apply the principles of human resource management to different situations.
- KRDN 4.5 Apply safety and sanitation principles related to food, personnel and consumers.
- KRDN 4.6 Explain the processes involved in delivering quality food and nutrition services.
- KRDN 4.7 Evaluate data to be used in decision-making for continuous quality improvement.
- KRDN 5.1 Perform self-assessment that includes awareness in terms of learning and leadership styles and cultural orientation and develop goals for self-improvement.
- KRDN 5.2 Identify and articulate one's skills, strengths, knowledge and experiences relevant to the position desired and career goals.
- KRDN 5.3 Practice how to self-advocate for opportunities in a variety of settings (such as asking for needed support, presenting an elevator pitch).
- KRDN 5.4 Practice resolving differences or dealing with conflict.
- KRDN 5.5 Promote team involvement and recognize the skills of each member.
- KRDN 5.6 Demonstrate an understanding of the importance and expectations of a professional in mentoring and precepting others.

KRDN's are measured in nutrition courses and will be identified within the course syllabi. An assignment, project, presentation, or exam/quiz may be used to measure a particular KRDN. All Nutrition and Dietetic students must pass (earn a score of at least 70%) the assignment/test/quiz/presentation associated with this KRDN during the course. If the assignment/test is not passed, the student will have an opportunity for remediation during the semester; however, the original grade earned will not be changed. Remediation will require the student to redo the work or complete additional work or testing. If a student does not pass the assignment/test even after remediation, the course instructor will notify the DPD Program Director. A verification statement will not be awarded unless the student provides the DPD Program Director with evidence that they have met the KRDN.

Policies/Procedures

Policy 1: Student recruitment and admission

1. Information for all prospective University of Delaware students is available at <http://www.udel.edu/admissions/>.
2. The Department of Health Behavior and Nutrition Sciences' Academic Advisors are available to meet with prospective students interested in the Nutrition and Dietetics major. In addition, the Nutrition faculty participate in recruitment events organized by Admissions, such as Blue and Golden Days
Admission requirements to the University of Delaware are located at <https://www.udel.edu/apply/undergraduate-admissions/apply-today/>
3. Students who have already completed a bachelor's degree and want to complete the DPD requirements at the University of Delaware must apply for admission to the University of Delaware. Prior to applying, students are encouraged to meet with the DPD Director.

Policy 2: DPD completion requirements and retention

Policy Statement: Students successfully completing the DPD requirements will receive a verification statement.

1. The curriculum for the Bachelor of Science in Nutrition and Dietetics requires 120 credits, including specific University and DPD course requirements. These courses must be completed unless otherwise specified by the program director.

These are the specific DPD Course requirements:

ENGL 110	Critical Reading and Writing	3 credits
MATH 114	College Mathematics and Statistics	3 credits
PSYC 100	General Psychology	3 credits
STAT 200	Basic Statistical Practice	3 credits
CHEM 103/133	General Chemistry with lab	4 credits
CHEM 104/134	General Chemistry with lab	4 credits
CHEM 213	Elementary Organic Chemistry	3 credits
CHEM 215	Elementary Organic Chemistry Lab	1 credit
CHEM 214	Elementary Biochemistry	3 credits
CHEM 216	Elementary Biochemistry Lab	1 credit
BISC 207/217	Introductory Biology with lab	4 credits
BISC 300/310	Introduction to Microbiology with lab	4 credits
or MMSC270	Medical Microbiol & Infectious Diseases	
KAAP 309	Anatomy and Physiology I	4 credits
KAAP 310	Anatomy and Physiology II	4 credits
MGMT 309	Organizational Behavior	3 credits
HBNS 103	Introduction to Nutrition Professions	1 credit
HBNS 200	Nutrition Concepts	3 credits
HBNS 201	Food Concepts (includes lab)	4 credits
HBNS 235	Cultural Awareness for Health & Healthcare	3 credits
HBNS 250	Introduction to the Nutrition Care Process	3 credits
HBNS 305	Nutrition in the Lifespan	3 credits
HBNS 321	Quantity Food Production and Service	3 credits
HBNS 322	Management Food & Nutrition Services	3 credits
HBNS 327	Onsite Food Production	3 credits
HBNS 330	Nutrition Counseling	3 credits
HBNS 360	Intro to Public Health & Community Nutrition	2 credits
HBNS 390	Nutrition Research Methods	3 credits
HBNS 400	Macronutrients	3 credits
or HBNS 611*	Advanced Macronutrient Metabolism	
HBNS 401	Micronutrients	3 credits
or HBNS 631*	Advanced Micronutrient Metabolism	
HBNS 404	Dietetic Professional Skills Seminar	1 credit

HBNS 421	Health and Nutrition Assessment (includes lab)	4 credits
HBNS 446	Teaching Methods: Nutrition/Foods	3 credits
HBNS 450	Medical Nutrition Therapy I	3 credits
HBNS 451	Medical Nutrition Therapy II	3 credits
HBNS 460	Community Nutrition	3 credits
HBNS 461	Community Nutrition Field Experience	1 credit

* 600-level courses would only be taken by students accepted into the 4+1 program

2. Students are expected to maintain a minimum **overall cumulative grade point average of C (2.00 GPA)** to be in good academic standing and to be awarded the Bachelor of Science degree in Nutrition and Dietetics (DPD).
3. A minimum grade of C- must be achieved for:
 - a. All HBNS, core DPD courses.
 - i. A minimum grade of C- in HBNS nutrition 200-level courses must be achieved to proceed to upper-level courses.
 - b. CHEM 104, CHEM 213, CHEM 214, CHEM 215, CHEM 216.
 - c. KAAP 309 and KAAP 310
 - Course [catalog](#) for reference
 - Students must retake a course until a C- or higher grade is achieved.
4. All Nutrition and Dietetic students must pass (earn a score of at least 70%) for all Knowledge for Registered Dietitian Nutritionists (KRDN).
 - a. Each KRDN is measured in an HBNS course using a specific assignment, project, test/quiz, or presentation.
 - b. If the assignment/test/etc. is not passed, the student will have an opportunity for remediation during the semester however, the original grade earned will not be changed.
 - c. Remediation will require the student to redo the work or complete additional work or testing. If a student does not pass the assignment/test even after remediation, the course instructor will notify the DPD Program Director.
 - d. A verification statement will not be awarded unless the student provides the DPD Program Director with evidence that they have met the KRDN.

Performance and Progress

Students are expected to meet regularly with their academic advisor to discuss their academic program, review their progress, and plan for successful completion of degree requirements. Advisors and students are encouraged to discuss relevant academic issues with the DPD Director.

It is recommended to meet for academic advising at least once each semester.

[Stellic](#) is a degree management and advising system for students, advisors and support staff. Students can access their degree audit, schedule advising appointments, and use the Stellic Planner. The Stellic Planner allows you to drag and drop classes from official degree audit requirements into a visual term-by-term layout so you can collaborate with your advisor to determine which courses/requirements to take in which semesters.

KRDN completion is monitored by the DPD Director. Students are encouraged to meet with the DPD Director to review their individual progress toward successful completion of all KRDN requirements.

Remediation

1. For students who are having difficulty with courses, the academic advisor, instructor, or DPD director may refer students to [Academic Coaching and Tutoring](#) services. Students are also encouraged to access these services on their own.
2. For remediation with completing KRDNs, as mentioned above, students will work with the instructor of the course to complete the work with an additional attempt, complete an alternate assignment, or work with the DPD director to complete the KRDN in another course or with another assignment/assessment method.
3. Students who may not be meeting requirements to complete a Nutrition and Dietetics degree will have the option to change their major to Integrated Health Sciences or another major but would not be eligible to receive a DPD Verification Statement.
4. Students are expected to meet regularly with their academic advisor to discuss their academic program, review their progress, and plan for successful completion of degree requirements. Advisors and students are encouraged to discuss relevant academic issues with the DPD Director.

Other students who wish to receive a Verification Statement from the University of Delaware

1. Students who have already completed a bachelor's or master's degree and want to complete the DPD requirements at the University of Delaware must apply for admission to the University of Delaware. The program director will review the student's transcript to determine which DPD courses will need to be taken. Transcript review for DPD course requirements will be limited to individuals who meet at least one of the following criteria: a) resident of the State of Delaware; b) graduate of University of Delaware with at least a bachelor's degree and/or student accepted by the University of Delaware.
2. Students who previously earned a minimum of a bachelor's degree and who have returned to meet the DPD requirements, have a maximum of five years to meet DPD requirements from the

date of acceptance in order to receive a Verification Statement. If the student needs more than five years, the student will be required to meet the DPD requirements currently in effect. An overview of the Nutrition and Dietetics major can be found in the University's [catalog](#).

3. Coursework requirements to receive a Verification Statement from University of Delaware

To receive a verification statement from the University of Delaware Didactic Program in Dietetics (DPD), the following courses MUST be taken at UD:

HBNS 321	Quantity Food Production and Service	3 credits
HBNS 322	Management Food & Nutrition Services	3 credits
HBNS 327	Onsite Food Production	3 credits
HBNS 360	Introduction to Public Health & Community Nutrition	2 credits
HBNS 404	Dietetic Professional Skills Seminar	1 credit
HBNS 450	Medical Nutrition Therapy I	3 credits
HBNS 451	Medical Nutrition Therapy II	3 credits
HBNS 460	Community Nutrition	3 credits
HBNS 461	Community Nutrition Field Experience	1 credit

Formal assessment of student learning

Students are evaluated throughout the program using assignments, projects, and tests as determined by faculty. Grades will be awarded for all assignments, projects and tests that address a student learning outcome and for every course. All Nutrition and Dietetics students must pass (earn a score of at least 70%) for all Knowledge for Registered Dietitian Nutritionists (KRDN). Each KRDN is measured in an HBNS course using a specific assignment, project, test/quiz, or presentation.

Information on Receiving a Verification Statement

The Verification Statement, signed by the DPD Director, documents that an individual has completed the requirements of a dietetics education program accredited by the Accreditation Council for Education in Nutrition and Dietetics. This document is essential to establish eligibility:

- for post graduate supervised practice programs
- to take the Registration Examination for Registered Dietitian Nutritionists.
- for Academy of Nutrition and Dietetics Active membership.

The Verification Statement is also required for students wishing to pursue a career as a Nutrition and Dietetics Technician, Registered ([NDTR](#)). Successful completion of the Registration Examination for Dietetic Technicians administered by the Commission on Dietetic Registration (CDR) is also required for the NDTR credential.

All DPD graduates receive a digitally signed electronic verification statement, approximately 2 weeks following the confirmation of the degree. A copy of the verification statement will be kept on file by

the program director. For more information about Verification Statements, refer to “[Frequently Asked Questions](#)”

Policy 3: Distance Education

Policy Statement: Students participating in distance education activities are expected to meet the same academic and professional standards as they would during in-person activities.

Distance education activities include any instructional, advising, or program-related experience conducted through technology when students and instructors, advisors, guest speakers, or other University representatives are separated by time, location, or both. Examples include online courses, virtual class sessions, guest lectures, orientation programs, advising appointments, office hours, workshops, and other required or optional educational events delivered synchronously or asynchronously. Students are expected to actively participate in these activities, communicate professionally, and adhere to all applicable University and program policies.

The [UD Online Testing Center](#) provides services to assist with exams. Exams at a distance will be administered as computer-based using ProctorU with support from the Online Testing Center.

All students’ identities are confirmed by a valid government-issued photo ID prior to sitting for each proctored exam. Student privacy during a proctored exam at a distance is maintained through direct communication and the use of a secure testing service. UD Online staff, distance testing proctors and UD’s Academic Technology Services via the Central Authentication System (CAS) ensure the consistent application of the above student verification procedures.

Policy 4: Access to Support Services

Policy Statement: Students have access to a variety of University Support Services.

- a. [Library Services](#)
- b. The University [Writing Center](#)
- c. [Academic Coaching and Tutoring](#) Services
- d. University [Undergraduate Catalog](#)
- e. Student Guide to [University Policies](#)
- f. Tuition and fees ([Student Financial Services](#)): Including withdrawal and refund information
- g. Scheduling and program calendar, including vacation & holidays:
 - i. The DPD follows the [University of Delaware academic calendar](#)
- h. [Student Health Services](#)
- i. Center for [Counseling and Student Development](#)
- j. Academic Counseling/Advising:
 - [University](#)
 - [Department](#): Health Behavior and Nutrition Sciences

Policy 5: Program costs, withdrawal and refund of tuition and fees

Policy Statement: It is the University's policy that students who withdraw in writing from the University by the end of the semester's free Drop/Add period are eligible for a full refund of tuition and fees for that semester.

1. No refunds of tuition or fees will be made for withdrawals after the free Drop/Add period expires. More information on a [leave of absence](#).
2. Please see the University's [academic calendar](#) for withdrawal deadlines.
3. Cost of attendance: detailed information is available on the [cost](#) of obtaining a Bachelor of Science degree from the University of Delaware.
4. No additional costs are associated for students enrolled in the DPD, except for potential background checks or drug screening for an experiential learning site (see Policy 11). It is also highly recommended to join the [Academy student membership](#).

Policy 6: Protection of student information

Policy Statement: Student records will not be released to anyone outside the University of Delaware and students have access to their own files.

1. Student photos and other information associated with class rosters on the University's Student Information System (UDSIS) are treated as Personal Non-Public Information (PNPI) as defined by the Federal Family Rights and Privacy Act (FERPA) and by [University of Delaware policy](#).
2. Personal, Non-public Information (PNPI): State and Federal laws and regulations govern the safeguarding of personal, non-public information (PNPI), such as Social Security Numbers (SSNs) and grades associated with names. Faculty and Staff are cautioned to properly protect this information by encrypting electronic files and locking stored hardcopy files.
3. Student information and access to personal files information is available on the [university's website](#).
4. The University of Delaware is required to comply with state and federal laws regarding the delivery of distance education. [Consumer Information and Compliance](#) is available.

Policy 7: Filing and handling of complaints

Policy Statement: Students may contact the program director with any complaints throughout the academic year. In addition, students may file formal complaints with the Chair of the Department of Health Behavior and Nutrition Sciences or the Office of the Assistant Provost without threat of retaliation.

1. If the student prefers to file a complaint with an administrator other than the program director, they should follow the usual [grievance procedures](#) afforded all students enrolled at the University of Delaware.
2. Students may submit complaints directly to ACEND only after all other options with the program and University have been exhausted. ACEND can be contacted by email (ACEND@eatright.org), phone (1-800-877-1600 x5400), or mail (120 S. Riverside Plaza, Suite

2190, Chicago, IL 60606-6995). Information on filing a written complaint with ACEND, relating to program noncompliance with accreditation standards is found on the [ACEND](#) website.

3. Complaints made to the program director will be kept on file for a period of seven (7) years, after which the documentation will be destroyed.

Policy 8: Assessment of prior learning and credit toward program requirements

Policy Statement: The DPD program recognizes transfer coursework completed at other colleges and universities; however, credit toward DPD program requirements is not awarded based on prior work experience or professional experience.

1. No credit is granted for previous work experience.
2. [Transfer Credit](#): A course transferred from another college or university that has already been identified as equivalent to a DPD course will be accepted.
3. Courses that do not have an established equivalency can be submitted to the DPD Director for review. [Requirements](#) for this review include the course description and the course syllabus.

Policy 9: Disciplinary/termination procedures

Policy Statement: The DPD program follows University of Delaware policies and procedures related to student conduct, academic standing, disciplinary action, and dismissal.

1. Disciplinary and termination procedures for all University of Delaware students are found in the [Student Guide to University Policies](#) and in the Undergraduate and Graduate [Catalog](#).
2. Students are expected to maintain a minimum overall cumulative grade point average of C (2.00 GPA) to be in good academic standing, and full-time students must enroll in at least 12 credits per semester. Students whose cumulative GPA falls below 2.0 will be placed on Academic Warning. Depending on performance in subsequent semesters, students may be subject to other academic statuses, including Academic Suspension or Academic Dismissal. [Academic Standing FAQ](#) are available for additional information. **Refer to Policy 2 for more detailed information on course and KRDN expectations and completion.**

Policy 10: Professional Liability

Policy Statement: All University students are insured against third-party liability claims when participating in a Field Experience program. Students are not classified as professionals or employees and cannot be held responsible for a professional/employee level of performance.

Policy 11: Experiential learning

Policy Statement: Experiential learning for students may take place at facilities throughout Delaware and other states.

1. Transportation to and from facilities is the responsibility of the student.
2. Students are not paid compensation for experiential learning.
3. The student is responsible for their own personal liability and safety during travel to and from assigned experiential learning sites.

4. If the student experiences an injury or illness while at their supervised practice facility, the student should notify the instructor immediately. The student and instructor will follow the facility's policies and procedures for on-duty injuries.
5. Criminal background checks may be required by an experiential learning facility. Students must complete requirements by the deadline set by the instructor/facility. Students are responsible for all costs associated with the background checks. The course instructor will provide detailed instructions on obtaining the criminal background check. If a student's criminal background check discloses a conviction, the [Office of Clinical Studies](#) and the instructor will then determine whether the student may continue with the experiential learning opportunity.
6. Drug screening may be required by an experiential learning facility. Students are required to provide evidence of a negative drug screen prior to starting their first supervised practice rotation. Students are responsible for all costs associated with screening.

Eligibility to the 4+1 Program

The Department of Health Behavior and Nutrition Sciences offers a [4+1 BS/MS program](#) that allows students to complete both the Bachelor of Science degree in Nutrition and Dietetics and the Master of Science degree in Human Nutrition in a total of five years of full-time study. This program allows students to complete the ACEND-accredited Didactic Program in Dietetics (DPD) and graduate degree required to be eligible to apply to ACEND-accredited dietetic internship programs.

The 4+1 program offers three optional concentrations to align with students' interest areas and future career goals:

1. Dietetics
2. Public Health
3. Health Coaching
 - Graduates of the Health Coaching concentration are eligible to take the National Board for Health & Wellness Coaching Certification Exam to become a Health & Wellness Coach (NBC-HWC).

Admission Requirements

- Current enrollment in the Nutrition and Dietetics major at UD with completion of at least 45 credits
- Minimum cumulative GPA of 2.75
- Minimum grade of B in STAT 200 or equivalent course
- Personal statement that clearly explains how admission to this program will facilitate the student's professional objectives
- Resume
- Submission of the [Graduate Course Approval Form](#)
- The GRE is not required

The application deadline is **March 15** of the student's sophomore or junior year. The application fee will be waived automatically for applicants to this 4+1 program.

4+1 Undergraduate Curriculum

Students accepted into the 4+1 program will complete the following graduate coursework in their senior year:

- HBNS 631: Advanced Micronutrient Metabolism (instead of HBNS 401: Micronutrients); 3 cr.
- HBNS 611: Advanced Macronutrient Metabolism (instead of HBNS 400: Macronutrients); 3 cr.
- HBNS 680: Nutrition Peer Mentoring; 1 credit

Students will complete the remaining 25 graduate credits over the course of two graduate academic semesters following their completion of their undergraduate degree.
