

UNIVERSITY OF DELAWARE
HEALTH SCIENCES

**THE CENTER OF
BIOMEDICAL RESEARCH
EXCELLENCE IN
CARDIOVASCULAR HEALTH:
2025 CARDIOVASCULAR
RESEARCH SYMPOSIUM
LIST OF POSTERS**

List of Posters

1

**Correlates of Self-Care Behaviors in Adults with Heart Failure:
A Secondary Analysis of 2021-2023 NHANES Data**

Presenter: Rachel Thomas

2

ACE Key Roles in Cardiovascular Health

Presenter: Hanaah Lansel

3

**Negative Affective Responsivity to Daily Stressors and Beat-to-Beat
Blood Pressure Variability in Normotensive Young Adults**

Presenter: Madison G. Evering

Co-Authors/Contributors: Ashley M. Darling, Benjamin E. Young, Aaron S. Autler, Paul J. Fadel, David M. Almeida, Freda Patterson, Jody L. Greaney

4

**Bidirectional Associations Between Daily Stress, Moderate-To-
Vigorous Physical Activity, and Sedentary Time in Young and Midlife
Adults**

Presenter: Aaron Autler

Co-Author/Contributors: Sun Ah Lee, Virginia Nuckols, Madison Evering, Freda Patterson, David Almeida, Jody L. Greaney

5

**Stress, Diet Quality, and Temporal Eating Patterns in Young Adults:
Implications for Cardiovascular Risk**

Presenter: Clarisse M. Hunt

Co-Authors/Contributors: Jillian C. Trabulsi, Jody L. Greaney

6

**Four-week time restricted eating intervention is associated with
improvements in cardiometabolic risk factors and dysregulated
eating among emerging adult women: a single-armed trial**

Presenter: Hannah Cash

Co-authors: Diane Vizthum, Carrie Earthman, Melissa Melough, Freddie Patterson, K. Allison, Carly Pacanowski

List of Posters

7

Endothelial Cell CD36 Ablation Attenuates Obesity-Induced Endothelial Dysfunction

Presenter: Erica J. Johnson

Co-Authors/Contributors: Thanh, Sabita Rokka, Emma Hudgins, Bhaswati Khasyap, Anthony R. Tascone, Elizabeth McCarthy, Caitlin Halbert, Ibra S. Fracher

8

The Effects of Added Sugar Intake on Sleep Health in Midlife Adults

Presenters: Kevin P. Decker

Co-Authors/Contributors: Zoe Rigas, Catherine Awad, Nicholas A. Rizzi, Michele N. D'Agata, Melissa A. Witman, Shannon L. Lennon, and Christopher R. Marten

9

Children with Increased Variability in Sleep Duration are Less Physically Active, Independent of Sleep Duration

Presenter: Evan Ciecko

Co-Author/Contributors: Michele N. D'Agata, Alexis A. Matias, Krista M. Szymanski, Elissa K. Hoopes, Melissa A. Witman, FACSM

10

Supporting Sleep Health Using Chatbot Technology: Perspectives of Adolescents with Autism and Their Primary Caregivers

Presenter: Fatou Marong,BS

Co-Authors/Contributors: Abigail Strang, MD, Seema Rani, MD, Lauren Convington, PhD, RN, Sarah Mallory, PhD, Heidi Hildick, RN, Stuart Mary, RN, Xiaopeng Ji, PhD, RN

11

High-Intensity Interval Training Increases Blood Pressure Reactivity in Sedentary Females

Presenter: Samuel A.W. Zercher

Co-authors: Bryce J. Muth, Joseph M. Stock, David G. Edwards

List of Posters

12

Cardiovascular Health as Defined by Life's Essential 8 is Associated with Vascular Function in Middle-Aged Females

Presenter: Susmita Basnet, MS

Co-Authors: Melisaa Melough, PhD; Jody Greaney, PhD; David G. Edwards, PhD; Adrianna Verdezoto Alvarado, PhD; Benjamin Brewer, PhD; Shannon Robson, PhD, MPH, RD

13

Potassium Supplementation Lowers Inflammation and Improves Endothelial Function Under High-Sodium Conditions in Normotensive Adults

Presenter: Jessica M. Irwin

Co-Author/Contributors: Andrea J. Lobene, Kathryn E. Kaseman, Cesar E. Jacintho Mortiz, Shannon L. Lennon

14

Exploring The Effect of Acute Antioxidant Supplementation on Central and Peripheral Blood Pressure in Emergency Medical Services (EMS) Workers

Presenter: Raina Lakhani

Co-Authors/Contributors: Alexis A. Matias, Grant E. Maxa, Evan C. Ciecko, Melissa A. Witman

15

Examining Neurovascular Coupling in Older Adults During the SLUMS Exam: An Exploratory Study

Presenter: Serena Schade

Co-Authors: E. Orsega-Smith, N. Getchell

16

Selenoprotein S Role in Endoplasmic Reticulum Ca²⁺ Flux

Presenter: Marsha Kapitonova

Co-authors: Farid Ghelichkhani, Sharon Rozovsky

List of Posters

17

Endothelial Function in Former Contact and Non-Contact Athletes

Presenter: Steve Song

Co-Authors/Contributors: Caitlin A. Gallo, Matthew Overstreet, Cesar E. Jacintho Mortiz, Thomas A. Buckley, David G. Edwards, Shannon L. Lennon

18

Hyperglycemia Contribution to Endothelial Dysfunction and Cardiovascular Disease

Presenter: Emma Hudgins

19

Effects of Acute Antioxidants on Post-Night-Shift Vascular Function in First Responders: A Pilot Study

Presenter: Alexs A. Matias

Co-Author/Contributors: Grant E. Maxa, Raina Lakhani, Evan C. Ciecko, Melissa A. Witman FACSM

20

Assessment of Arterial Stiffness Across the Menstrual Cycle in Healthy Premenopausal Females

Presenter: Kaylen R. Clark

Co-Author/Presenters: Ninette Shenouda, David G. Edwards

21

Microvascular Endothelial Function in Midlife Women Using Intrauterine Devices

Presenter: Virginia Nucklos

Co-Authors/Contributors: Madison Evering, Aaron Autler, Allyson Schwab, Megan Wenner, Freda Patterson, Jody Greaney

22

Circadian Rhythm Fragmentation is Associated with Carotid Hemodynamics in Adults with Transtibial Lower-Limb Loss

Presenter: Ankit Shahi

Co-Authors/Contributors: S.J. Stauffer, C.E. Vallery, J.M. Witt, J.M. Sions

List of Posters

23

Exaggerated Exercise Blood Pressure Response in Hypertension: Influence of Fitness

Presenter: Joseph Larsen, MS

Co-Authors/Contributors: Jayson Gifford, PhD; Brigham Young University, Provo, UT

24

Social Vulnerability and Hypertension in Delaware

Presenter: Aditya Chandel

Co-Authors/Contributors: Adam Bitunguramye, Heather Milea, Christine Sowinski, Lauri Ruggerio, Jennifer Horney

25

Sleep, Social Determinants and Blood Pressure: Exploring Associations in Delaware's Emerging Young Adults

Presenter: Banushree Jawaharlal Nehru MBBS

Co-Authors/Contributors: Benjamin Brewer PhD, Shannon Mayberry MS, Nicholas Bendel, Ashley Cooke, Xiopeng Ji, PhD, RN; Freda Patterson, PhD; Lauren Covington, PhD, RN

26

Central Arterial Wave Reflection in Duchenne Muscular Dystrophy: Potential Effects of Ambulation and Corticosteroid Treatment

Presenter: Grant E. Maxa

Co-Authors/Contributors: Alexis A. Matias, Krista M. Szymanski, Evan C. Ciecko, Michele N. D'Agata, Mena Scavina, Michael A. McCulloch, David G. Edwards, Melissa A. Witman

27

Influences of Prenatal Phthalate Exposure on Early Childhood BMI z-Scores and Risk of Overweight/Obesity in the Environmental Influences on Child Health Outcomes cohort

Presenter: Mary Webb

Co-Authors/Contributors: Jee Won Park, Drew B. Day, Jillian Trabulsi, Sheela Sathyanarayana, Melissa M. Melough

List of Posters

28

Associations of PFAS with Cardiovascular Risk and the Potential Role of Dietary Fiber in Midlife Women

Presenter: Sanaz Pourreza

Co-Authors/Contributors: Sanaz Pourreza, Megan M. Wenner, Ally I. Schwab, Melissa M. Melough

29

Ultrasound Assessment of Cardiovascular Disease Burden Among Adults with Transitional Lower-Limb Loss

Presenter: Samantha Stauffer

Co-Authors/Contributors: JM Witt, CE Vallery, AK Shahi, JM Sions

30

A Novel Workflow for Isolation and Characterization of Urinary Extracellular Vesicles Using Nanoscale Flow Cytometry

Presenter: Vinicius P. Garcia

Co-Authors/Contributors: Nicholas Chouramanis, Sam Zercher, Cesar E.J. Mortiz, Arit Ghosh, David G. Edwards

31

Mitochondrial CD36 Regulates Lipid Metabolism and Superoxide Production in Endothelial Cells Under Hyperglycemic and Obesogenic Conditions

Presenter: Bhaswati Kashyap

Co-Authors: Thanh Nguyen, Emma Hudgins, Erica Johnson, Ibra S. Francher*

32

Impact of Obesity on ETB Receptor-Mediated Dilation in Mid-life Premenopausal Women

Presenter: Leila Griffin

Co-authors/Contributors: Sangeetha Nathaniel, Allyson I. Schwab, Emily Shaw, Virginia Nuckols, Megan M. Wenner

List of Posters

33

The Association Between Cardioagal Baroreceptor Sensitivity and Brain Mechanical Properties Across the Lifespan

Presenter: Nathan T. Romberger

Co-Authors/Contributors: Fiona M. Horvant, Mary K. Kramer, Ryan Hoefer, Kevin P. Decker, Nick A. Rizzi, Zoe Rigas, Kirti Daga, Curtis L. Johnson, Christopher R. Martens

34

Cellismo: a user-friendly graphics-based interface for visualization and rapid analyses of multi-omic single cell-RNA sequencing data

Presenter: Aeila Chesley

Co-authors/Contributors: Hayden Harach, Mark Shaw, Brewster Kingham, and Arit Ghosh

35

Coenzyme Q10: Miracle Molecule or Overhyped Supplement?

Presenter: Alicia Acosta
