

University of Delaware
 Department of Kinesiology and Applied Physiology
 Athletic Training Education Program (ATEP)

Additional Program Costs

There are costs associated with being enrolled in the UD ATEP that are in addition to typical university costs such as tuition, room, board, and books. We believe it is important to be up front and as accurate as possible with regard to these additional costs. They include but are not limited to: lab fees, immunization maintenance, apparel to adhere to dress code(s), student membership fees for the National Athletic Trainers Association (NATA), and travel to and from off-campus clinical assignments. The approximate costs for these are:

- Lab fees (KAAP620): \$300
 - http://www.udel.edu/finaid/cb_coursefees.html
- Laboratory Supplies: \$100
 - This includes a shoulder sling, trifold pouch, scissors, CPR mask, penlight, goniometer
- Immunization maintenance: \$0-\$250
 - Depending on personal health insurance; for a majority of students, their insurance covers most if not all of the immunizations.
- Background Check/ Drug Screening: \$75
 - Some off-campus clinical sites require additional student screening.
- Apparel: \$50-\$250
- A-Track Subscription: \$45
 - The only online tracking tool of its kind dedicated to athletic training programs. AT students utilize this on-line program to document clinical hours, access important program documents, review preceptor evaluations, monitor progress with clinical proficiencies, and much more.
- NATA student membership: \$85/year for renewal and \$65/year for new members
 - <http://www.nata.org/membership/about-membership/join-and-renew/dues>
- Travel: Variable
 - Distances range from 0-30 miles; therefore, travel costs vary accordingly. Only some affiliated sites are outside the service of free public transportation. Prior to a student being assigned to one of those sites, the Clinical Education Coordinator will ensure the student has the means to provide transportation for him/herself.
 - Graduate students in their final semester in the MS-AT program will be required to partake in a semester-long clinical immersion experience at a site of their own

choosing. It is important to remember that the student is responsible for all tuition (Athletic Training Evidence-Based Practicum V - KAAP694 3 cr. hr.), transportation, room, board, and other costs associated with this rotation. The ATEP **will not** offer any subsidies toward the experience.

- Board of Certification (BOC) Exam: \$335
 - Students completing the UD ATEP will be eligible to sit for the BOC exam to become a Certified Athletic Trainer (ATC). The fees for the exam (available on the BOC website, <http://www.bocatc.org/candidates/faqs>) are:
 - Application Fee (one-time, non-refundable) \$35
 - First Time Exam Fee: \$300
