APPENDIX A.

Description of Agreement Types

General Agreements are University-wide agreements that establish formal partnerships between the University of Delaware and the international partner in order to create future collaborative activities.

Degree/Education Program Agreements are specific to a UD College and/or Department that includes dual degree programs, internships, and other international education programs not subject to receiving students from the partner institution.

Exchange Agreements are specific to a UD College and/or Department that establish faculty and/or student mobility programs. In these agreements, the expectation is that UD and the partner institution will both send AND receive students and/or faculty as part of the program. Note: students are subject to rules and regulations concerning tuition reciprocity when participating in an exchange.

Study Abroad/World Scholars Agreements are specific to programs administered by IGS. Please contact go-global@udel.edu for more information.
