

MASTER OF PUBLIC HEALTH HEALTH POLICY & MANAGEMENT

The Master of Public Health (MPH) in the Biden School of Public Policy & Administration at the University of Delaware provides students with a broad understanding of public health principles, critical thinking skills, and practical competencies to address today's complex public health challenges.

The MPH in Health Policy & Management is a 42-credit program that includes courses shared across an interdisciplinary core as well as a required applied practice experience and integrative learning experience.

Courses in population health are supplemented by courses in health policy and management content areas—program evaluation, financial management, conflict resolution, inequities in health and healthcare—as well as approved electives from around the University.

AREAS OF FOCUS

- ◆ Inequities in Health and Healthcare
- ◆ Health Policy
- ◆ Health Systems
- ◆ Program Evaluation
- ◆ Public Management
- ◆ Policy Analysis
- ◆ Emergency Management
- ◆ Nonprofit Management

FUTURE CAREER

MPH graduates are prepared for careers in applied public health settings, including:

- ◆ Healthcare institutions
- ◆ Nonprofit organizations
- ◆ Local, state, and federal agencies
