Clinic Coordinator, Department of Behavioral Health & Nutrition

Hours: 20 hours per week
Compensation: Hourly rate commensurate with experience
Benefits: Non-benefited position

Job Description: Under general supervision of the Nutrition Clinic Director, the Clinic Coordinator is primarily responsible for the administrative needs of the Nutrition and Health Coaching Clinics at the University of Delaware. The Clinic Coordinator will schedule patients' appointments with Registered Dietitian Nutritionists and Health Coaches, and complete patient insurance verification, billing and health assessment measures during patient appointments. The Clinic Coordinator will also be responsible for National Diabetes Prevention Program administrative duties. Must understand organizational policies and procedures, medical billing, insurance verification and reimbursement.

Major Responsibilities:
- Works in conjunction with Nutrition and Health Coaching Clinic staff to provide a welcoming atmosphere to all who enter or contact the Clinic.
- Uses the electronic medical record (EMR) system independently and proficiently for patient scheduling and billing functions as assigned
- Documents phone and verbal messages and delivers messages to staff and healthcare providers in a timely manner
- Maintains, prints, modifies, distributes daily patient schedules to healthcare providers
- Collects and processes payments via cash, check, and credit card
- Obtains demographic and financial information from clients, scheduling, and daily front desk operations
- Verifies insurance benefits in a timely manner for new clients, as well as needed follow up verification for existing clients. Communicating this information to clients and clinical staff in a timely manner, as appropriate.
- Reviews, verifies and processes financial and non-financial documents.
- Works with billing company to help resolve billing issues.
- Completes insurance credentialing applications for Registered Dietitian Nutritionists
- Performs health assessment measures such as height, weight, blood pressure and other body size measurements
- Enters data into Excel spreadsheets and other electronic data base software
- Complies with all HIPAA and compliance regulations as set forth by the University.
- Works with the Nutrition Clinic and Health Coaching Directors as a liaison with community partners for special Clinical programming.
- Position will be 20 hours per week, with flexibility as determined by business need.
- Performs other related duties as assigned.

Qualifications, Minimum Education & Experience:
- Associates degree or higher required; degrees in nutrition or health field and one to two years of customer service experience preferred
- Nutrition Dietetics Technician, Registered (NDTR) credential preferred
- Medical office program training, previous experience with electronic medical record software, knowledge of medical terminology, and previous patient interaction preferred.
- Computing skills including email and word processing
• High level of accuracy and attention to detail
• Sensitivity to the needs of others.
• Ability to maintain good public relations.
• Ability to communicate effectively and interact well with people of all ages and diverse backgrounds.

Physical Demands and Work Environment:
• May encounter emotionally upset patients and visitors.
• Ability to lift, move, push and pull equipment or boxes of up to 25 pounds
