The Center for Environmental Monitoring and Analysis (CEMA) seeks a detailed-oriented person who enjoys working outdoors to join our team as a meteorological network technician. This position will support the operation and maintenance of the Delaware Environmental Observing System (DEOS) network (http://www.deos.udel.edu) – a 90+ station environmental monitoring network serving the State of Delaware and the surrounding region. Typical duties for this position involve field work in various weather conditions, travel throughout Delaware and the surrounding region, and operation of power and hand tools.

This is a part-time position (3 days per week for up to 24 hours per week), with flexibility on the days of the week worked.

Start Date: November 1, 2023

Report Location: Newark, DE or Lewes, DE

Responsibilities:

- Installing and maintaining environmental monitoring stations
- Travel to remote sites using field vehicles
- Install and test sensors and electronic equipment
- Troubleshoot, repair, and replace electronic sensors as needed
- Perform basic data entry of information collected in the field
- Performing miscellaneous job-related duties as assigned

Qualifications:

- High school diploma or GED
- Post-secondary school education in electronics or environmental field preferred
- One to two years’ experience installing and repairing sensors or small electronics preferred
- Must possess a valid driver’s license (Class D)
- Ability to work outdoors in various weather conditions
- Ability to lift and carry objects (up to 80 lbs.)
- Ability to climb ladders (up to 30 feet)
- Ability to operate power and hand tools

Apply:
To apply, please submit a resume with 3 references to Kevin Brinson at kbrinson@udel.edu.
