

Find in-network doctors and compare costs.

It's easier than ever to find the care you need.

1

Visit myhighmark.com or download the [My Highmark app](#).

2

After logging in, select **Get Care**, then select **Go to provider search**.

3

Search by category, provider name, specialty, or condition.

Your health plan has two in-network levels.

These levels let you choose providers that participate at either the Enhanced Value or Standard Value Level of Benefits. You'll get high-quality care no matter what, but at the Enhanced Value level, you'll pay less.

After searching for a provider, you'll be able to see which benefit levels each provider participates at. You can even filter your search by benefit level.

You can filter your search by:

Location • Patient ratings • Language • Provider name and specialty • Gender

Members can use the Care Cost Estimator to search for estimates on:

- Physicals, including adult and well-child checkups.
- Women's Health, including mammograms, breast biopsies, ultrasounds, vaginal and C-section deliveries.
- MRIs and other imaging.
- Colonoscopies.
- Weight loss surgery.
- Physical therapy and chiropractic treatment.

These are just the most common searches. If you don't see what you're looking for, you can click **All Procedures (A-Z)** to compare costs on more than 1,600 common health care services so you can choose the options that give you the best value and quality.
