

COMPLETE AND SUBMIT THIS FORM IN YOUR FINAL *UNDERGRADUATE* OR FIRST *GRADUATE* TERM

Students in a 4+1 program are allowed to transfer a certain number of credits to *dual-count* toward both the undergraduate & graduate degrees. The # of dual-count courses is set in the academic catalog for the year the student is accepted to the 4+1. Refer to catalog.udel.edu and select the correct year at the top.

For 4+1 or other graduate students, *non-dual-counted* graduate courses taken while an undergraduate may also be transferable to the graduate record. Non-dual-count courses must not be used to satisfy undergraduate degree requirements (including major, minor, Breadth, nor the total # of credits needed to earn the Bachelor's degree). They must be at the 600 level or above, with work completed at the graduate level, and are usually capped at 9 transferable credits.

All internally transferred courses must earn a minimum grade of B- (or higher if required for a specific 4+1) and taken no more than 5 years before matriculation. Credits, grades, and quality points will transfer, counting in the graduate GPA.
