

# Think **Safety** First!

## CHEMICAL SAFETY MOMENT

Issue 34 – September 2018

### Is your Bio Box ready for pickup?

Rules for biohazard box pickup:

1. Tape the bottom of the box.
2. Double bag with **RED** bio bags and tape both bags closed before sealing the box.
3. Close the top of the box as shown in the top **right** image, then tape box closed. Do NOT fold the box flaps as in the left image.
4. Do not exceed 55 lbs.

### How to Triple Rinse a container

What is the proper method to triple rinsing a container?

1. Rinse with copious amounts of water. Collect the first rinse as chemical waste. Rinse two and three can go down the sanitary sewer.
2. Place a label over the original container label or deface the label and write **empty** and **triple rinse**.
3. Do not replace the cap on the container.

Place empty/triple rinsed containers in a lab trash box or directly into recycle dumpster.
