

CHEMICAL SAFETY MOMENT

Issue 37 – December 2018

Be Safe Over Winter Break

As the semester ends, fewer people will be around the labs and buildings. Please follow the advice below:

- Do not perform hazardous experiments during the break!
- Use the **buddy system** anytime you are in the lab; you never know when an accident will occur.
- Wear proper **PPE** (safety glasses, gloves, and lab coats).
- **Label** all waste and reactions properly.
- **Save Energy!** Turn off lights, unplug hotplates and other equipment not in use, and keep hood sashes closed.
- Keep labs and offices **locked** to prevent theft.
- If you do not recognize someone, ask them their name and their purpose in the building, or contact UDPD.
- In addition to **911** for **fires and emergencies**, add these numbers to your phone:

Facilities: 831-1141

UDPD: 831-2222

EH&S: 831-8475

Winter Break: Dec 24 - Jan 1

Match GHS Pictograms to the Hazard

1. Carcinogen, Mutagenicity, Respiratory Sensitizer, etc.
2. Flammables, Pyrophorics, Organic Peroxides, etc.
3. Irritant, Acute toxicity (harmful), Skin Sensitizer, etc.
4. Gases Under Pressure
5. Skin corrosion/Burns, Eye Damage, Corr. to Metals
6. Explosives, Self-Reactives, Organic Peroxides
7. Oxidizers
8. Aquatic Toxicity
9. Acute Toxicity (fatal or toxic)

Ans: a5, b2, c9, d4, e6, f3, g1, h8, i7
