Chemical Cleanouts

Does your lab have old or unwanted chemicals?

There is no need to treat, quench, or pour off your unwanted chemicals before EHS takes them. If your lab has chemicals that are no longer needed, keep them in the original container and submit an EHS web form request for chemical pickup. It's that easy! It doesn't matter if you have one bottle or 100, EHS will pick them up for FREE!

If you have any questions, please contact EHS 302-831-8475 or dehsafety@udel.edu. Pickup request forms can be found in the Web Forms menu.
