The University of Delaware participates in the National Collegiate Emergency Medical Services Foundation HEARTSafe Campus program which promotes Rapid Public Access to Defibrillation.

When walking at night, use the best-lit route and try not to walk alone, if possible. Know where the blue light phones to the University Police are located.

Marked railroad crossings are the ONLY safe places to cross the tracks, and only when the signals are not flashing.

UDPD is using state-of-the-art surveillance cameras on campus to help keep the university community safe. You will see surveillance cameras in parking lots, on heavily traveled roadways and walkways and near university residence halls and facilities. These cameras help our department to provide an additional layer of security.
